Zoubir,2019-11-14 This book brings together Algerian based scholars and Algerians in the diaspora to address the many salient issues facing Algeria the largest country in Africa and the Middle East Until February 22 2019 Algeria looked like the beacon of stability in the region for the authoritarian regime eluded the so called Arab Spring which resulted in chaos in a number of countries in the Middle East and North Africa The authors of the chapters in this book are a mix of sociologists economists political scientists linguists and international relations specialists who have used the theoretical and methodological instruments in their respective fields to decipher the complexities that characterise the Algerian political system In the domestic part some of the chapters deal with issues seldom tackled in Maghreb studies namely the language and identities issues which are at the forefront of the protest movement since February 2019 Other chapters analyse the role of the elites the emergence of the new entrepreneurs the future of energy gender media and human rights the predicament of the rentier state and the resource curse The international relations part examines Algeria's roles in the Mediterranean and in the Sahel the strategic partnership with China the complicated relations with France and the relations with Iran and the Gulf Cooperation Council GCC Exploring Algeria's transformation this collection is an original addition to the books on the Maghreb that will be a key resource to students and scholars interested in the developing world the Middle East and North Africa **SAHARA OCCIDENTAL : LE COÛT DU CONFLIT.** International Crisis Group,2022 **AF Press Clips** ,1978-07 **Saharan Conflict** Abdelhamid El Ouali,2008 Western Sahara has for centuries played a crucial role in the national history of Morocco However since the end of the 19th century when Spain established its colonial domination on the territory it has become a troubled region In the sixties Spain was on the verge of returning Western Sahara to Morocco but changed its mind after the discovery of phosphates Since then the United Nations has worked tirelessly to bring the unrest in Western Sahara to an end by promoting the implementation of the so called self determination independence solution but this has proved inappropriate Recently prospects for a fair and realistic solution have emerged in the form of granting autonomy to the territory under Moroccan sovereignty This fresh solution based on democratic self determination mirrors that of territorial autonomy regimes successfully implemented in advanced democratic states including Greenland and the Faroe Islands under the
