Achievement Motivation Questionnaire ,1988 **Achievement Motivation Inventory** Heinz Schuler,2004 Area of Application Personnel Selection Potential Analysis Professional Counseling Personnel Development Profiling Psychology of Sports Personality Research General Aspects The Achievement Motivation Inventory AMI is a personality inventory designed to measure a broad construct of work related achievement motivation It is founded on the theoretical work related to the German Leistungsmotivationsinventar LMI Schuler Prochaska 2001 and enables users to test candidates for 17 different facets of achievement motivation The theoretical conception of this test is based upon all common conceptualizations of the construct but for the first time integrates relevant social motives into a test measuring the construct of achievement motivation as well Thus in addition to traditional scales e g Confidence in Success or Persistence scales like Dominance or Status Orientation are integrated in the AMI The AMI consists of 170 items to be responded by examinees on a 7 point Likert format Reliability Reliability Cronbach s alpha for the total score is .96 and ranges from .66 to .83 for single scales Retest reliability is .94 for the total score and ranges from .71 to .89 for single scales **The Construction of an Achievement Motivation Scale for Use in the Athletic Environment** Randy G. Fox,1977 *Some Basic Validation Data for the Achievement Motivation Scale (AMS)* Per Rand,1978 *The Achievement Motive* David C. McClelland,2020-04-23 This book contains a summary of research on the achievement motive conducted mainly at Wesleyan University during the period January 1 1947 to January 1 1952 under the continuous moral and financial support of the Office of Naval Research It provides a practicable method of measuring one of the most important human motives a method moreover which in all probability can be applied to other motives with equal success Secondly the book contains what we believe to be an important contribution to psychological theory at least to the theory of motivation Finally the book contains a great deal of information about the achievement motive and related variables In personality theory there is inevitably a certain impatience a desire to solve every problem at once so as to get the whole personality in focus The authors have proceeded the other way By concentrating on one problem on one motive they have found in the course of their study that they have learned not only a lot about the achievement motive but other areas of personality as well So they feel that this book can be used as one basis for evaluating the degree to which a piecemeal approach to personality is profitable an approach which proceeds to build up the total picture out of many small experiments by a slow process of going from fact to hypothesis and back to fact again
