**Model Making** Bernard Otte, Arjan Karssen, 2014 This book is a step by step guide to creating convincing architectural models

The Model as Performance Thea Brejzek, Lawrence Wallen, 2017-11-16 The Model as Performance investigates the history and development of the scale model from the Renaissance to the present Employing a scenographic perspective and a performative paradigm it explores what the model can do and how it is used in theatre and architecture The volume provides a comprehensive historical context and theoretical framework for theatre scholars scenographers artists and architects interested in the model's reality producing capacity and its recent emergence in contemporary art practice and exhibition Introducing a typology of the scale model beyond the iterative and the representative model the authors identify the autonomous model as a provocative construction between past and present idea and reality that challenges and redefines the relationship between object viewer and environment The Model as Performance was shortlisted for the best Performance Design Scenography Publication Award at the Prague Quadrennial PQ 2019

*Contemporary Studies in Environment and Tourism* Recep Efe, Munir Ozturk, 2017-05-11 The tourism industry is striving hard to create attractive worlds for its customers Both as a necessity and as a challenge this field is overwhelmed by the imagination economy but raises several questions about tourists providing opportunities to move deeper into the understanding of complexities involved in relationships among tourists tourism sites and their historical structure and environmental sustainability As a result of this a serious academic interest in tourism has developed over recent decades as a complex aspect of investigation into humans and their environment This volume brings together case studies from different parts of the world focusing on tourism and its interactions with the environment It provides a general outline of theoretical issues and their practicality in different industrialising countries from both the East and the West The book will appeal to researchers involved in tourism studies and environmental interactions as well as academicians and tourism agencies

**The Disorder of Mathematics Education** Hauke Straehler-Pohl, Nina Bohlmann, Alexandre Pais, 2016-08-23 Research within a socio political paradigm or turn has been gradually recognized and institutionalized as an important part of mathematics education This book focuses on the neglected problems tensions and contradictions evoked by this process The authors do this by challenging current regimes of truth about mathematics education by identifying how recent technological developments challenge or suspend contemporary conceptions of mathematics education by critiquing the ideological entanglement of mathematics its education and schooling with capitalism by self reflective analyses of researchers impacts on shaping what is and can be perceived as the practice of mathematics education research and by confronting main stream mathematics education with socio political contexts that are usually neglected In this way mathematical rationality becomes contextualized within contemporary society where it

reproduces itself through technologies social practices media and other spheres of social life      **Game Analytics** Magy Seif El-Nasr, Anders Drachen, Alessandro Canossa, 2013-03-30 Developing a successful game in today's market is a challenging endeavor. Thousands of titles are published yearly, all competing for players' time and attention. Game analytics has emerged in the past few years as one of the main resources for ensuring game quality, maximizing success, understanding player behavior, and enhancing the quality of the player experience. It has led to a paradigm shift in the development and design strategies of digital games, bringing data-driven intelligence practices into the fray for informing decision making at operational, tactical, and strategic levels. **Game Analytics: Maximizing the Value of Player Data** is the first book on the topic of game analytics, the process of discovering and communicating patterns in data towards evaluating and driving action, improving performance, and solving problems in game development and game research. Written by over 50 international experts from industry and research, it covers a comprehensive range of topics across more than 30 chapters, providing an in-depth discussion of game analytics and its practical applications. Topics covered include monetization strategies, design of telemetry systems, analytics for iterative production, game data mining, and big data in game development, spatial analytics, visualization, and reporting of analysis, player behavior analysis, quantitative user testing, and game user research. This state-of-the-art volume is an essential source of reference for game developers and researchers. Key takeaways include: Thorough introduction to game analytics, covering analytics applied to data on players, processes, and performance throughout the game lifecycle; In-depth coverage and advice on setting up analytics systems and developing good practices for integrating analytics in game development and management; Contributions by leading researchers and experienced professionals from the industry, including Ubisoft, Sony, EA, BioWare, Square Enix, THQ, Volition, and Playable Games; Interviews with experienced industry professionals on how they use analytics to create hit games.      **Making Health Public** Charles L. Briggs, Daniel C. Hallin, 2016-05-20 This book examines the relationship between media and medicine, considering the fundamental role of news coverage in constructing wider cultural understandings of health and disease. The authors advance the notion of biomediatization and demonstrate how health knowledge is co-produced through connections between dispersed sites and forms of expertise. The chapters offer an innovative combination of media content analysis and ethnographic data on the production and circulation of health news, drawing on work with journalists, clinicians, health officials, medical researchers, marketers, and audiences. The volume provides students and scholars with unique insight into the significance and complexity of what health news does and how it is created.      **Engineering and Mining Journal**, 1922      **Engineering and Mining Journal-press**, 1922      *Coach-makers' International Journal*, 1909      **The Northwestern Druggist**, 1925      Parliamentary Debates Australia.
