

REMINGTON FIELD SERVICE MANUAL

The Remington Nylon 66 is a .22 caliber autoloading rifle. The autoloading action after firing will open, eject, cock, and reload for the next pull of the trigger. Long rifle cartridges only load and fire in this rifle. The tubular magazine, loaded through the butt of the stock, has a capacity for 14 long rifle cartridges.

The natural slip-smooth qualities of Du Pont nylon provide bearing surfaces for the action and breech parts. Light lubrication on metal surfaces for preservation only is required.

SAFETY PRECAUTIONS BEFORE HANDLING OR SHIPPING. With empty Magazine Tube locked properly to rifle, pull Bolt Handle repeatedly. This should eject any live rounds left in the action or in the Magazine Tube. Then check cartridge chamber in Barrel for a live round.

As a final precaution, open action. The magazine Follower should be plainly visible from ejection port.
