## The Query Theory

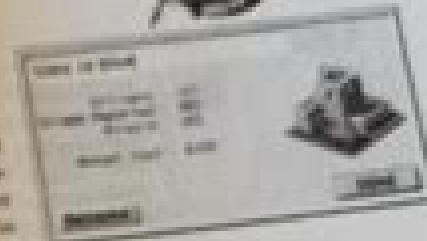

Inquiring mayors want and need to know what's going on in their towns. And whether you need to research important city issues or are just curious, the Query tool gives you the answers.

Click on the Query button in the City toolbar.

Click on a house in your residential zone.

An information box has popped up showing vital stats the simulator has gathered on the house you clicked.

all the information but to show it in a more useful way.

Again, an information box has popped up, but this one with different information—information that is important in judging the effectiveness of your police station. Whenever you query a police station, you will see the most useful information.

Pay attention to the numbers of officers, crimes and calls in this box, and scribble them down on a piece of paper if you can't handle them. Later on we'll see what calling the police is all about.

With the Resource button, SimCity 2000 allows you to personalize your city by removing many of the buildings and locations.

Click on the Resource button.

In your own name for your police department, something like "Metropolitan Police," or "State Police."

Click on the Query button.

When houses, culture and income overlap, creative concepts flow through our minds, our shops, our homes. Under ideal conditions, we're better able to experience and understand complex systems.
