The Evolving Military Balance in the Korean Peninsula and Northeast Asia Anthony H. Cordesman, Ashley Hess, 2013-07-10 The Evolving Military Balance in the Korean Peninsula and Northeast Asia describes the strategy force deployments and the military balance in potential current and future scenarios involving the Democratic People's Republic of Korea Republic of Korea People's Republic of China Japan and the United States The analysis in these volumes shows how tensions between the Koreans and the potential involvement of the China Japan Russia and the United States create a nearly open ended spectrum of possible conflicts These range from posturing and threats wars of intimidation to a major conventional conflict on the Korean Peninsula to intervention by outside powers like the United States and China to the extreme of nuclear conflict The analysis shows that the Korean balance is sharply affected by the uncertain mix of cooperation and competition between the United States and China The U S rebalancing of its forces to Asia and the steady modernization of Chinese forces in particular the growth of Chinese sea air missile capabilities affect the balance in the Koreas and Northeast Asia They also raise the possibility of far more intense conflicts that could extend far beyond the boundaries of the Koreas
