*British Leyland* James Taylor, 2018-03-26 In 1968 British Leyland brought together many of Britain's motor manufacturers with the intention of creating a robust unified group that could equal the strength of the big European conglomerates. But this was not to be. There have been many books about the politics and the business activities of British Leyland, but *British Leyland The Cars 1968-1986* looks exclusively at the cars that came from the company, both the models it inherited and those it created. The eighteen years of the corporation's existence saw a confusing multitude of different car types, but this book resolves these confusions, clarifying who built what and when. The book takes 1986 as its cut-off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group. The book includes production histories and technical specifications of every major model. The special overseas models. Appendices on engines, code names and factories. Buying guidance on the models built in Britain. This is the most comprehensive book so far to focus on the cars from British Leyland between 1968-1986 and it provides an overview of each model's production history together with essential specification details. It is profusely illustrated with 178 colour and 63 b/w photographs. *The Autocar*, 1986. **The Illustrated Book of Classic & Dream Cars** Martin Buckley, Chris Rees, 2001. Anatomy of the Classic Mini Mark Huthert, 2017. This book's title sums up its purpose. Anatomy of the Classic Mini is the result of years of research and documents the many variations of the same components, explaining which model and date each is for. An essential reference book for all restorers of classic Minis. National Union Catalog, 1973. Includes entries for maps and atlases. **The Motor**, 1975. **The British National Bibliography** Arthur James Wells, 1972. The Encyclopedia of Classic Cars Kevin Brazendale, 1999. This reference features the best models from the greatest manufacturing companies of the world, both past and present. Alphabetized entries include a short history of each manufacturer. Specific models of 600 plus cars are examined in detail and illustrated by color and b/w photos, highlighting their unique qualities. The story of each classic car is complemented by performance tables that include information such as maximum speed and power, engine type and details of transmission, chassis, suspension and brakes. Oversize 9.5x12. Annotation copyrighted by Book News Inc. Portland, OR. *Cars* Martin Buckley, 2002. The definitive guide to the world's most celebrated classic cars.
