## MATERIAL CONSIDERATIONS

### ABS

Acrylonitrile butadiene styrene is a terpolymer, meaning a combination of three polymers. ABS is a versatile, impact-resistant material that is easy to add color to and construct things with.

### Aluminum 6061

Aluminum is a lightweight, durable, and corrosion-resistant metal that is electrically conductive. The most commonly used, general-purpose alloy is 6061 aluminum, which offers a great blend of strength and machinability.

### Carbon Steel

As defined by AISI, carbon steel contains a carbon content up to 2.1% by weight. Lower carbon steels suitable for machining include C1010 and C1018.

### HDPE

HDPE stands for high-density polyethylene. It's an inexpensive, lightweight, chemical-resistant, food-safe plastic that has a high strength-to-density ratio, making it well suited for many applications.

### Titanium

Titanium has a low density but high strength and can be alloyed with aluminum and iron among other elements. It has a low heat conductivity requiring lower cutting speeds in order to prolong tool life.

### Acrylic

Acrylic is a transparent thermoplastic derived from natural gas, more brittle than polycarbonate but more scratch resistant and available in many colors and textures.

### Brass

Brass is an alloy of primarily copper and zinc. It's often called free-machining brass because it's hard enough to hold its shape but soft enough to machine easily.

### Delrin

Delrin is the brand name for acetal homopolymer resin, which is a very hard, high-strength engineering plastic. It can withstand temperatures from -40°F to 248°F and mills easily.

### Stainless 316

Stainless steel is a steel alloy with a minimum of 10.5% chromium. The presence of chromium creates a thin, microscopic layer preventing corrosion and rust. Stainless 316 is more resistant to acids than its 304 counterpart.

### Tool Steel

Tool steel contains a carbon content between .5% and 1.5%. The presence of carbides play a dominant role in the quality of tool steel, and the resistance to abrasion make it well suited for hand tools and machine dies.
