Thomas Griffiths

Maclaren Rocker User Guide:

The Lilaguide: Baby Gear Guide Lilaguide, Elysa Marco, 2005-09 This pocket sized guide provides ratings and reviews of parents favorite baby gear including strollers car seats highchairs toys clothing and much more Each listing in the guide provides manufacturer s information and product specs in addition to parent ratings and quotes commentary Alphabetical and manufacturer indexes make finding relevant information easy and fun

ECMO: A Practical Guide to Management Ahmed Reda Taha, Mark Caridi-Scheible, Eric R. Leiendecker, Casey Frost Miller, 2024-09-06 ECMO has in the last year advanced rapidly in its prevalence and ease of use It is becoming the standard of care for the management of severe ARDS however its adoption outside of relatively few large hospitals in primarily very wealthy nations has been limited This is in part improving as the cost of the equipment and associated resources decline however a significant barrier to its use is the expertise required to manage the patient There are only a few existing reference books on the topic but they suffer from being too comprehensive too basic too theoretical or else they are too expensive for the average practitioner or hospital system to use as general reference material for training This book is designed to be a practical guide to the management of ECMO by the entire ECMO team from specialists to physicians It discusses the core physiological principles necessary to the understanding of its management but also then discusses how to practically apply these principles on a day to day basis It is structured in a focused and concise manner with an emphasis on translating theory to actual equipment and patients through the use of visuals The book is divided into twelve individual sections that each contain various chapters The first section provides an introduction to the book itself as well as the authors The second section explains the history of ECMO The third section focuses on program development while the fourth section is all about patient selection The fifth section details physics and technology while the sixth and seventh sections break down the physiology The eighth section describes cannulation and configuration while the ninth focuses on complications and emergencies The remaining three sections detail patient management pharmacology and anticoagulation and weaning and decannulation Written by experts in the field ECMO A Practical Guide to Management targets bedside providers such as physicians and mid level providers however it is also a useful reference for nurses and respiratory therapists on the team While it contains sufficient advanced material to keep more seasoned practitioners engaged it also focuses on only the necessary and practical principles to appeal to a variety of readers

The Challenge of Stability and Security in West Africa Alexandre Marc, Neelam Verjee, Stephen Mogaka, 2015-06-19 Since independence the West African sub region has been an arena for a number of large scale conflicts and civil wars as well as simmering and low intensity uprisings Contrary to perceptions West Africa in its post independence history has experienced fewer conflict events and fatalities from conflict than the other sub regions on the continent The turn of the millennium has witnessed the recession of large scale and conventional conflict and it has ushered in new and emerging threats The specters of religious extremism maritime piracy and narcotics trafficking threaten to undermine some

of the progress achieved in recent years The Challenge of Stability and Security in West Africa critically examines the key drivers of conflict and violence and the way in which they impact the countries of the sub region In addition to emerging threats these drivers include the challenges of youth inclusion migration sub regional imbalances and extractives as well as challenges related to the fragility of political institutions and managing the competition for power reform of the security sector and weakness of institutions related to land management The book explores how the sub region under the auspices of the regional organization ECOWAS has become a pioneer on the continent in terms of addressing regional challenges The Challenge of Stability and Security in West Africa also identifies key lessons in the dynamics of resilience in the face of political violence and civil war drawn from Cote d'Ivoire Liberia and Sierra Leone that can be useful for countries around the world in similar situations It incorporates knowledge and findings from leading experts and provides insights from academics and development practitioners Finally the book identifies possible policy and programmatic responses and directions for policy dialogue at the national and international levels
