 reference sources which will help readers select primary materials useful in studies of the literary portraits of women and
 their societal roles The years 1961 to 1981 were set as boundaries for this volume because the author s initial research
 revealed that a twenty year span was a manageable unit because the novels published between those dates yielded abundant
 materials for such a reference work and because significant changes in the way portraits of adolescent females were being
 drawn took place during the period for example sex role stereotyping became a shade less prevalent young women s
 sexuality was discussed more forthrightly and some topics such as single women s pregnancies and lesbianism were treated
 more overtly sometimes less judgementally **Writing Beloveds** Aileen A. Feng,2017-01-01 This study considers the way in
 which a poetic convention the beloved to whom Renaissance amatory poetry was addressed becomes influential political
 rhetoric an instrument that both men and women used to shape and justify their claims to power The author argues that
 Petrarchan poetic conventions were part of a social discourse that signaled anxiety concerning the rising place of women as
