Larson,1997-11-28 Meaning Based Translation is designed for training beginning translators and organized chapter by chapter as drill material for the textbook Meaning Based Translation The textbook emphasizes the importance of a translation being accurate clear and natural and the exercises give the student practice in achieving this goal The exercises follow closely the content of the textbook since this is a drill manual for added practice The textbook has some exercises as well but the workbook provides additional practice from one basic source thus giving students a wider variety of problems to solve during practice time It also provides material that can be used as homework or as testing material **A Practical Guide to Localization** Bert Esselink,2000-01-01 Translation technology has evolved quickly with a large number of translation tools available In this revised addition much content has been added about translating and engineering HTML and XML documents multilingual web sites and HTML based online help systems Other major changes include the addition of chapters on internationalizatoi software quailty assurance descktop publishing and localization support There is a focus on translators who want to learn about localization ad translation technology *A Small Guide to Translation*
