The Autopage Starter with Autopage Entry System has been designed to be installed on Transponder systems with an Autopage Transmitter (AT-1000).

1. Mount the unit where it will be visible to the vehicle owner.

2. The system must be installed and tested through a safety switch or it will not start in any forward or reverse gear.

Some Autopage Transmitter vehicles may have other AT-1000 vehicles with a system that has a mechanical key. The mechanical key does not interrupt the system until the key is removed. It is a key and does not allow the AT-1000 to start in any forward or reverse gear. Therefore, the system should never be installed on any vehicle that has a mechanical key. The system will not start in any forward or reverse gear.

Once you install the system, you must verify that the system will not start in any forward or reverse gear.

3. Mount the system where it will be visible to the vehicle owner.

4. Do not install any component that the vehicle can start in any forward or reverse gear.

Some vehicles have a factory installed transponder system that can prevent the system from being installed on some Autopage Transmitter vehicles.

5. Some vehicles have an AT-1000 or AT-1000S system. The system will not start in any forward or reverse gear.

6. Disconnect the air battery before beginning work on the system.

Check battery polarity before wiring any other. Check the wiring harness for other components that are located between the system that would otherwise be damaged.

7. Do not use conventional jump lead, battery or any other. The system will not start in any forward or reverse gear.

8. Install the system where it will be visible to the vehicle owner.
