Macroeconomics Manfred Gärtner, 2016-03-01

Macroeconomics and the History of Economic Thought H.M.

Krämer, Heinz Kurz, H.-M. Trautwein, 2012-03-29 The essays in this Festschrift have been chosen to honour Harald Hagemann and his scientific work They reflect his main contributions to economic research and his major fields of interest The essays in the first part deal with various aspects within the history of economic thought The second part is about the current state of macroeconomics The essays in the third part of the book cover topics on economic growth and structural dynamics

United States Academic Decathlon Curriculum , Critique of the New Consensus Macroeconomics and Implications for India Dilip M. Nachane, 2018-11-02 The thought provoking book presents alternative viewpoints to mainstream macroeconomic theory questions conventional policy wisdom and suggests a systematic re orientation of current macroeconomic and financial regulatory policies in India The New Consensus Macroeconomics NCM which established itself in the 1980s as mainstream macroeconomics essentially represents an uneasy truce between two dominant schools of economic thought viz New Classical and Neo Keynesian economics The NCM sets the tone for much of the macroeconomic especially monetary policy followed by the advanced economies in the period of the Great Moderation 1990 2005 The recent global crisis has posed a major challenge to the NCM as empirical models based on the NCM failed to anticipate the occurrence of the crisis and later its extent and severity The above considerations constitute the underpinnings of this book which addresses the theoretical controversies within a general context and their policy implications for India The authors analysis leads to a somewhat critical assessment of the financial sector policies followed in India since the initiation of reforms in 1991 This makes the book a valuable resource not only for researchers working in this area but also for policy makers

Economics , 1999 The Japanese Economy, second edition Takatoshi Ito, Takeo Hoshi, 2020-01-28 The second edition of a comprehensive account of all the major aspects of the Japanese economy substantially updated and expanded This textbook offers a comprehensive rigorous but accessible account of all the major aspects of the Japanese economy grounding its approach in mainstream economics The second edition has been extensively revised and substantially updated with new material that covers Japan s period of economic stagnation between 1991 and 2010 The first edition published in 1992 focused on Japan as a success story of catch up economic development this edition reflects the lessons learned from Japan s Lost Two Decades After presenting the historical background the book begins with macroeconomics studying growth and business cycles It then covers essential policy issues with new material that takes into account the Japanese banking crisis of 1997 1998 and the global financial crisis of 2008 2009 discussing financial regulation monetary policy and fiscal policy It goes on to examine saving demography and social security in light of Japan s ongoing demographic transition industrial organization labor markets international trade and international finance and the Japan U S relationship A new chapter offers a detailed analysis of the Lost Two Decades synthesizing and applying concepts discussed in previous chapters

and offering insights into such issues as successful catch up growth demographic shifts and credit booms and busts
