IT Security Management Alberto Partida, Diego Andina, 2010-06-08

IT securiteers The human and technical dimension working for the organisation. Current corporate governance regulations and international standards lead many organisations big and small to the creation of an information technology IT security function in their organisational chart or to the acquisition of services from the IT security industry. More often than desired these teams are only useful for companies executives to tick the corresponding box in a certification process be it ISO ITIL PCI etc. Many IT security teams do not provide business value to their company. They fail to really protect the organisation from the increasing number of threats targeting its information systems. IT Security Management provides an insight into how to create and grow a team of passionate IT security

professionals We will call them securiteers They will add value to the business improving the information security stance of organisations
