Esmail, 2018-12-06 This book aims to help students researchers and policy makers understand the latest research and development trends in the application of WebGIS for Disaster Management and Emergency Response It is designed as a useful tool to better assess the mechanisms for planning response and mitigation of the impact of disaster scenarios at the local regional or national levels It contains details on how to use WebGIS to solve real world problems associated with Disaster Management Scenarios for the long term sustainability The book broadens the reader understanding of the policy and decision making issues related to Disaster Management response and planning Strategic Information Systems:

Concepts, Methodologies, Tools, and Applications Hunter, M. Gordon, 2009-08-31 This 4 volume set provides a compendium of comprehensive advanced research articles written by an international collaboration of experts involved with the strategic use of information systems Provided by publisher **Introduction to Integrated Geo-information Management** Seppe

Cassettari, 2012-12-06 This book was inspired by the revolution in geographical information systems during the late 1970s and 1980s which introduced to many the concept of computer based information systems for spatially referenced data The map the aerial photograph and the satellite image were wedded to a database of textual information through the rapidly developing technology of powerful graphics workstations This brought the skills of the geographer to a wide range of disciplines and specialists But this book is not about the basic concepts of geographical information systems themselves It is not about hardware or software per se nor the integral concepts of geo referenced data handling built into such systems these are to be found in a growing number of introductory texts on the subject Instead the focus of this book is on of geo

information management the much wider issues While an understanding of the systems their capabilities and limitations is necessary of greater importance to the long term application of geographical understanding to problem solving is the wider context of information handling Spatial data are becoming increasingly important in understanding the issues that confront the world Chapter 1 is a discussion of the general issues which relate to management and information systems It concludes with review of spatial decision support systems which are of increasing importance to the GIS community **Intelligent Systems and Decision Making for Risk Analysis and Crisis Response** Chongfu Huang,Cengiz Kahraman,2013-07-25 In this present internet age risk analysis and crisis response based on information will make up a digital world full of possibilities and improvements to people s daily life and capabilities These services will be supported by more intelligent systems and more effective decisionmaking This book contains all the papers presented at the 4th Inter Business Information Systems: Concepts, Methodologies, Tools and Applications Management Association, Information Resources,2010-06-30 Business Information Systems Concepts Methodologies Tools and Applications offers a complete view of current business information systems within organizations and the advancements that technology has provided to the business community This four volume reference uncovers how technological advancements have revolutionized financial transactions management infrastructure and knowledge workers **Decision Making from a Cognitive Perspective** ,1995-10-20 The Psychology of Learning and Motivation publishes empirical and theoretical contributions in cognitive and experimental psychology ranging from classical and instrumental conditioning to complex learning and problem solving This guest edited special issue is devoted to research and discussion on decision making from a cognitive perspective Topics include judgment and decision making with respect to memory processes and techniques domain specificity and confirmation bias Key Features Synthesis of decision and cognitive research New theoretical treatments of critical phenomena New findings and systematic reviews of past work Coverage of preference inference prediction and hypothesis testing Written by the new leading generation of researchers **Technical Papers** ,1997 **Geographic Information** Association for Geographic Information.
