Impact of Disruptive Technologies on the Socio-Economic Development of Emerging Countries Mtenzi, Fredrick Japhet, Oreku, George S., Lupiana, Dennis M., 2023-06-12 Global emergencies such as the COVID 19 pandemic and environmental concerns have challenged the readiness of societies and forced them to operate in more innovative ways. In response, the world has witnessed new technologies emerge and researchers continually finding better solutions to cope with these situations. It is crucial that these innovations are investigated so that we may better the world during times of crisis. *Impact of Disruptive Technologies on the Socio Economic Development of Emerging Countries* provides relevant case studies, innovative disruptive applications, and the latest empirical research findings in the digital technology space. Additionally, it provides accounts of the design, development, and usage of digital solutions that have an impact on addressing societal problems in emerging economies. Covering topics such as e-social work, social media addiction, and adaptive testing, this premier reference source is an essential resource for government officials, entrepreneurs, politicians, business leaders, students, and educators of higher education, sociologists, librarians, researchers, and academicians. *Nationwide Youth Consultations on Malawi Growth and Development Strategy II & III and UNDAF 2017-2021 Agenda* James M. Climate Impacts on Agricultural and Natural Resource Sustainability in Africa Bal Ram Singh, Andy Safalaoh, Nyambilila A. Amuri, Lars Olav Eik, Bishal K. Sitaula, Rattan Lal, 2020-03-17 This book discusses knowledge-based sustainable agro-ecological and natural resource management systems and best practices for sustained agricultural productivity and ecosystem resilience for better livelihoods under a changing climate. With a focus on agriculture in Africa, the book assesses innovative technologies for use on smallholder farms and addresses some of the key Sustainable Development Goals to guide innovative responses and enhanced adaptation methods for coping with climate change. Contributions are based on Capacity Building for Managing Climate Change in Malawi (CABMACC), a five-year program with an overall goal to improve livelihoods and food security through innovative responses and enhanced capacity of adaptation to climate change. Readers will discover more about sustainable crop production, climate-smart agriculture, on-farm energy supply from biogas, and the potential of soil carbon sequestration in crop-livestock systems. *Climate Change and the Role of Education* Walter Leal Filho, Sarah L. Hemstock, 2019-11-28 This book offers insights into the educational dimensions of climate change and promotes measures to improve education in this context. It is widely believed that education can play a key role in finding global solutions to many problems related to climate change. Indeed, education as a process not only helps young people to better understand and address the impact of global warming but also fosters better attitudes and behaviours to aid efforts towards mitigating climate change and adapting to a changing environment. But despite the central importance of education in relation to climate change, there is a paucity of publications on this theme. Against this background, the book focuses on the educational aspects of climate change and showcases examples of research projects and other initiatives aimed at educating various

audiences It also provides a platform for reflections on the role education can play in fostering awareness on a changing climate Presenting a wide range of valuable lessons learned which can be adapted and replicated elsewhere the book appeals to educators and practitioners alike
