2014 is the year of the 250th anniversary of Neo Gothic and Horace Walpole's novel *The Castle of Otranto* published in 1764 is seen as the first representative of the Gothic romance. Its main innovation was to arouse opposed emotions such as horror and commiseration. This use of a radical contrast is one of the hallmarks of Gothic: light and dark, good and evil, love, sex and death. Gothic is to be counted to one of those terms that have to be observed more closely because it contains more than at first sight. Gothic is not just black clothes and a depressive attitude. It rather turns out to be really difficult to encompass because it comprises many different aspects. Gothic stands for architecture, for literature and for the special present subculture, the Goths. This term paper does not approach the architectural or literary aspects of Gothic.
