Enhancing Innovation in the Ugandan Agri-Food Sector: Robusta Coffee Planting Material & Tropical Fruit Processing World Intellectual Property Organization, Travis J. Lybbert, Gracious Diiro, Dick Kawooya, Sacha Wunsch-Vincent, 2017 Uganda's innovation performance in recent years has consistently outpaced other low income and Sub Saharan African countries Though encouraging this nascent progress will only benefit the broader Ugandan population if policy makers address specific constraints in the innovation systems of the critical agri food sector which is hampered by low productivity and profitability In this report we explore these constraints using an agricultural value chains framework with particular focus on the Robusta Coffee Planting Material Pipeline and tropical fruit processing *Investor and Stakeholder Perception Survey, 2014-2015*, 2015 *National Child-focused Policy Research Agenda 2016-2020*, 2016 Ugandan English Christiane Meierkord, Bebwa Isingoma, Saudah Namyalo, 2016-10-20 Ugandan English is a variety that has scarcely been noticed in past research This timely volume brings together African and European scholars in a first ever collection of articles that offer comprehensive discussions of the historical and present day sociolinguistics of English in Uganda and fine grained analyses of the structural characteristics of and attitudes to this hitherto largely unknown variety Using rich archive corpus and interview data as well as ethnographic and observational methods the various contributions paint a comprehensive picture of Ugandan English as distinct from other East African Englishes and as characterized by nativisation despite a still strong exonormative orientation reflecting the modern nation's status as a post protectorate under the influence of globalisation Apart from advancing our understanding of Ugandan English itself the individual chapters contribute to theoretical debates on language contact and variation as regards the influence of substrate languages founder populations language ideologies and socio economic factors **India-Africa Economic Relations in the New Global Economy** Rick Rowden, 2025-03-18 While there have been many books about China's growing economic role in Africa this book explores the much less well known story of India's growing economic role in Africa And like the big debates about China's role in Africa this book similarly asks if India is acting as a helpful development partner in Africa an exploitative new colonizer or if the answer ultimately has to do with the degree of agency exercised by African governments While the book documents the significant increase in Indian aid trade and FDI in Africa in the new millennium it also offers much more It comprehensively looks at theories of economic development the debates about the role of trade and industrial policies in economic development strategies colonial and post colonial literature and controversial features of today's global political economy as the background to study Africa and frames Africa India economic relations in these broad contexts The book reviews the history of India's diplomacy trade and investment in African countries since decolonization with a focus on the increased economic ties of the past two decades The main question examined is about the longterm impact that India's economic relations are having in African economies and if India is helping Africa to successfully develop over time or not The

author examines India's economic and strategic interests in the African region and offers a comparative analysis of Africa's trade with India, China, the European Union and other African nations. The book also explores a number of outstanding issues in India-Africa relations today such as Africa's role as a source of oil, gas and critical minerals needed by India, the lifesaving role of Indian generic medicines across the continent, the nature of the agricultural development model that India is introducing in Africa and key areas where Indian and African governments are cooperating in the international arena. The book offers a critical and in-depth look into the partnerships India has developed with African countries and contributes to the debate on economic relations between a more developed emerging market like India and less developed countries. A major contribution to the emerging area of South-South economics, this book, part of the Critical Political Economy of South Asia series, will be useful for scholars and researchers of economics, development economics, development studies, public policy, diplomacy, African studies, political economy, South Asian economics and international politics and trade.
