Science in Action 5 Louise Petheram, 2004-02 Full coverage of the QCA Scheme of Work for Science in a copiable book for Year 5 pupils age 9 to 10 Lesson plans copiable pupil activities assessment tests and extension activities are included Great value Full coverage of KS1 QCA Scheme of Work Fully photocopiable A whole years work included in each book Extension activities Assessment tests Lesson plans The Biology and Conservation of Animal Populations John A. Vucetich, 2024-07-02 A foundational text on animal population conservation featuring practical applications and case studies Winner of the Wildlife Society Publications Award Best Authored Book by the Wildlife Society The study of animal populations is integral to wildlife ecology and conservation Analyzing population biology data can help facilitate the recovery of threatened species manage overabundant species and ensure sustainable levels of harvest But for many students the complex math involved is a barrier to understanding the importance of the data s applications The emphasis on solving mathematical problems in traditional population biology texts may also seem far removed from the heart of conservation work that students find most compelling The Biology and Conservation of Animal Populations is built differently It provides a thorough introduction to this fundamental science in an accessible context that centers conservation not equations This textbook written by prominent conservation scientist author and wolf biologist John A Vucetich challenges students to think critically about big questions in conservation work such as what does and does not count as an endangered species and why and addresses these issues using practical examples and case studies The crucial mathematics concepts needed to fully understand these issues are explained by directly connecting the equations with their use in efforts to conserve animal populations Included in the text are explicit learning goals for each chapter in depth case studies and step by step exercises demonstrating how to perform calculations and simulations in Excel and online supplementary materials Vucetich also gives substantive attention to the growing call for integrative learning by connecting population science to the ethical considerations that guide its application *Cross-Curricular Resources for Young Learners* Immacolata Calabrese, Silvana Rampone, 2013-05-20 Many primary schools across the world are introducing Content and Language Integrated Learning CLIL This resource book for primary teachers provides appropriate easy to use resources for teaching subjects through English **Collecting Data in Animal Investigations** Diana Noonan, 2011 Mr Martins fourth grade class visits a park to observe certain animals gather data and present the information on simple diagrams charts and graphs *Handbook of Animal Diversity* Richard E. Blackwelder, 2019-08-08 This book is a summary of the diversity between and within the classes of animals It is intended for reference on all aspects of animals that can be studied comparatively but such comparisons requires that the occurrence of the feature in question be known for more than just one or two groups It is in large part a book on invertebrate animals because the vertebrates form only a small part of the diversity of animals **Mammal Life Cycles** Bray Jacobson, 2017-12-15 Mammals are a very diverse group From whales and dolphins that give birth in the water

to platypuses that lay eggs these life cycles can often seem very different However they re very similar Readers learn the basic structure of the mammal life cycle through simple language and accompanying diagrams that show the cycle step by step The main content offers a way for struggling readers to more easily learn an important science curriculum topic but can also be a great review tool for any reader **Animal Ecology** Charles Sutherland Elton,1927 **The Animal parasites of man** Harold Benjamin Fantham,1916 **The Horn Book Guide to Children's and Young Adult Books** ,2004 **A Laboratory Manual in Animal Parasitology** Harold Winfred Manter,1947 The Journal of the Department of Victoria Victoria.
