

Using Budgets to for Planning and Coordination

QUESTIONS

- Q10-1 A budget is a quantitative model of the expected consequences of the organisation's short-term operating activities. A budget typically represents the expected money inflows and outflows in order to assess whether the planned operations will meet the organisation's financial objectives.
- Q10-2 Flexible resources are those that vary with the activity level of the firm or organisation. Those that do not change with the activity level are typically referred to as committed or fixed resources.
- Q10-3 Yes, a spending plan is a budget since it provides a summary, in financial terms, of the student's spending intentions.
- Q10-4 In many ways the goal of a family budget is quite similar to the goal of a budget developed for an organisation. In other settings, the goal is to help family members and organisations achieve their objectives by allocating their resources wisely. Organizational budgets usually differ from family budgets in that one often deals internally (generally) with the members of operating units and their goals, and another set of budgets (collective and comprehensive or budgets) before the final budget is determined.
- Q10-5 A production plan is an outline that identifies proposed production starting an interval of time, such as a week or a month. A production plan is a shorter company identifies the number of drivers and trucks needed and assigns drivers and trucks to routes.
- Q10-6 Financial budgets represent proposed financial results for an organisation. Such budgets include a statement of expected cash flows, proposed balance sheet, and a proposed income statement. There are often called the basic financial statements. Operating budgets are plans used to guide the operations of the organisation. Such plans include sales, capital spending, production,
