Karnataka Forest Account Code Manual:

Forestry in Karnataka - a Journey of 150 Years DIPAK SARMAH, 2019-03-04 The book traces the history of forestry since the middle of the 19th century in the erstwhile territorial units that constitute the present state of Karnataka in India It provides glimpses of the forest policy and management of the British Indian government which had laid the foundations of scientific forestry in the Indian subcontinent A chronological account of the development of national forest policies plans and strategies in post independent India has also been given in the context of their impact on forest management in the states The book dwells comprehensively on multifarious aspects of forestry including the challenges faced by a forester in a situation of increasing demand and shrinking forest It highlights the strengths and weaknesses of the forest administration and recommends strategies to protect the remaining natural forest and to increase the tree cover everywhere to effectively confront the specter of environmental catastrophes facing the planet earth The book has brought out the inseparable and intrinsic relationship of mutual interdependence between forest and water two of the most important natural resources on which the future of mankind depends and calls for urgent action With detailed data analysis and inferences derived with an open mind the book forms a reference document for the present and future foresters Problems of the forestry sector in the developing world are similar Although the book focuses on the forestry scenario in Karnataka lessons learned and strategies recommended for forest conservation are relevant across a larger landscape with similar challenges and problems

Karnataka Sate Gazetteer, 2006 **The Karnataka Financial Code** Karnataka (India), 2000 **Down, but Not Out** Dipak Sarmah, IFS (Retd.), 2022-03-19 Blessed with extensive tracts of natural forest harboring the sandal tree *Santalum album* L the Indian state of Karnataka was a leading producer of sandalwood the most valuable product of the tropical forest However due to rampant smuggling during the last three four decades Karnataka s sandalwood production slipped to abysmally low levels with hardly any mature sandal tree being left in the forests What however is providential about the sandal is its resilience to fight for survival in the face of hostile situations Because of this resilience sandal has been able not only to survive in areas where it occurred naturally but also to surface in areas where it was not known to have existed in the past This extraordinary ability of sandal to survive adjust and propagate against heavy odds provides a beacon of hope that it is still possible to restore the lost glory of sandal in Karnataka s forests The book *Down but Not Out Sandal in Karnataka* attempts at sharing some information about the extensive sandal bearing forests that existed throughout the length and breadth of Karnataka and how they responded to management interventions during the past two hundred years It also dwells upon the challenges associated with the management of sandal in the context of its rapidly dwindling population and suggests ways and means to re establish and replenish its depleted stock ensuring that the new crop of sandal does not face the same fate as the old crop did in the past **Report of the Comptroller and Auditor-General of India, Government of Karnataka** India.
