This year the KX125 is even more of an all-out racer than before! The engine has undergone numerous design changes, and provides greatly improved mid-range performance. The air cleaner has a larger 2-stage element for better breathing and the exhaust system has been redesigned for increased power. Performance is consistent, too, with liquid cooling to ensure that excessive engine heat does not affect power delivery during long, demanding races. And to top it all off, there's the superb suspension response of Uni-Trak—to help you make it to the winner's circle in race after race!
