Le Phrasier Tome:

Space, Time and Language in Plutarch Aristoula Georgiadou, Katerina Oikonomopoulou, 2017-10-10 Space and time have been key concepts of investigation in the humanities in recent years In the field of Classics in particular they have led to the fresh appraisal of genres such as epic historiography the novel and biography by enabling a close focus on how ancient texts invest their representations of space and time with a variety of symbolic and cultural meanings This collection of essays by a team of international scholars seeks to make a contribution to this rich interdisciplinary field by exploring how space and time are perceived linguistically codified and portrayed in the biographical and philosophical work of Plutarch of Chaeronea 1st 2nd centuries CE The volume's aim is to show how philological approaches in conjunction with socio cultural readings can shed light on Plutarch's spatial terminology and clarify his conceptions of time especially in terms of the ways in which he situates himself in his era's fascination with the past The volume's intended readership includes Classicists intellectual and cultural historians and scholars whose field of expertise embraces theoretical study of space and time along with the linguistic strategies used to portray them in literary or historical texts **Plutarch's Cities** Lucia

Athanassaki, Frances Titchener, 2022 Plutarch's Cities is the first comprehensive attempt to assess the significance of the polis in Plutarch's works from several perspectives namely the polis as a physical entity a lived experience and a source of inspiration the polis as a historical and sociopolitical unit the polis as a theoretical construct and paradigm to think with The book's multifocal and multi-perspectival examination of Plutarch's cities past and present real and ideal yields some remarkable corrections of his conventional image Plutarch was neither an antiquarian nor a philosopher of the desk He was not oblivious to his surroundings but had a keen interest in painting sculpture monuments and inscriptions about which he acquired impressive knowledge in order to help him understand and reconstruct the past Cult and ritual proved equally fertile for Plutarch's visual imagination Whereas historiography was the backbone of his reconstruction of the past and evaluation of the present material culture cult and ritual were also sources of inspiration to enliven past and present alike Plato's descriptions of Athenian houses and the Attic landscape were also a source of inspiration but Plutarch clearly did his own research based on autopsy and on oral and written sources Plutarch Plato's disciple and Apollo's priest was on balance a pragmatist He did not resist the temptation to contemplate the ideal city but he wrote much more about real cities as he experienced or imagined them CR, 2003 **Time** Briton Hadden, Henry Robinson Luce, 1923 **De Arte Gymnastica**
