Le storytelling en action Olivier Clodong, Georges Chétochine, 2009-11-26 Avec le storytelling transformez un politique un cadre d'entreprise ou un baril de lessive en héros de saga Convaincre séduire et galvaniser Raconter une histoire est aujourd'hui devenu le moyen le plus puissant pour agir sur l'univers *Machiavel pour les entrepreneurs* Silver Corvids - Marketing, Et si les conseils visionnaires de Machiavel pouvaient guider votre ascension dans le monde des affaires modernes Machiavel pour les entrepreneurs transpose la philosophie pragmatique et percutante de l'auteur du Prince dans le contexte impitoyable des entreprises et du leadership Ce livre dévoile des leçons intemporelles sur le pouvoir la stratégie et l'influence adaptées pour relever les défis contemporains Inspiré par la vision sans concession de Machiavel il offre des clés pour naviguer dans les eaux complexes des relations professionnelles de la concurrence féroce et des décisions critiques Apprenez Maîtriser l'art de la perception Construisez une image de leader charismatique et stratégique tout en gardant une longueur d'avance Prendre des décisions audacieuses Identifiez les opportunités et agissez avec détermination dans les moments clés Gérer les alliances et les rivalités équilibrez coopération et concurrence pour maximiser vos avantages Saisir le pouvoir et le conserver Appliquez des principes prouvés pour asseoir votre autorité et protéger vos intérêts travers des exemples pratiques des analyses percutantes et des parallèles entre la Renaissance italienne et le monde des affaires modernes Machiavel pour les entrepreneurs devient une boussole pour ceux qui souhaitent non seulement survivre mais triompher dans un univers en constante évolution Osez penser comme un stratège agir comme un visionnaire et régner comme un prince Le succès vous attend si vous tenez prêt le saisir Narrativity, Coherence and Literariness Eva Sabine Wagner, 2020-06-08 The search for the defining qualities of narrative has produced an expansive range of definitions which largely unconnected with each other obscure the notion of narrativity rather than clarifying it The first part of this study remedies this shortcoming by developing a graded macro model of narrativity which serves three aims Firstly it provides a structured overview of the field of narrative elements and processes Secondly it facilitates the classification of narratological approaches by locating them on different stages of narrativity Finally it focuses attention on narrative dynamics as interpretative processes by which readers seek to produce narrative coherence The second part of this study identifies three different narrative dynamics which characterise Laclos's Dangerous Connections Kafka's Castle and Toussaint's novels Wagner bases her analyses of these dynamics not only on the texts themselves but also on the ways in which literary scholars imbue the texts with narrative coherence This book provides a long overdue systematisation of the jumbled field of theories of narrativity and opens new perspectives on the difficult relationship between narrative theory and interpretation Digital Cognitive Technologies Bernard Reber, Claire Brossard, 2013-01-09 Digital Cognitive Technologies is an interdisciplinary book which assesses the socio-technical foundations of Information and Communication Technologies ICTs which are at the core of the Knowledge Society This book addresses eight major issues analyzed by authors writing from a Human and Social Science

and a Science and Technology perspective The contributions seek to explore whether and how ICTs are changing our perception of time space social structures and networks document writing and dissemination sense making and interpretation cooperation politics and the dynamics of collective activity socio informatics
