These attributes include charisma to install ambition, inspirational motivation to install vision, Intellectual stimulation to install innovation, and individualized consideration to ensure maximum support of followers. However, according to Cordone, it is vital that followers focus on individual commitment and progression towards the goal of interest (Cordone, 2016). In addition, the approach enhances the ability to find a purpose, common ground and enhance the work ethic required to fulfill plans at an organizational and individual level (Rolfe, 2011).

One of the essays addressing leadership by Grant Cordone was derived from one of his inspirational speeches available on multiple media platforms (Cordone, 2016). According to the report, a good leader is supposed to prepare staff members to follow and react in a favorable way (Cordone, 2016). To be an effective leader, one needs to have undoubted self-esteem.
