Leadership Practices Dr. Widza Bryant, Cedric Bryant, 2023-02-09 Leadership the ability to bring people together to accomplish shared goals be it in an organization or a church was instituted by God from the beginning In the context of the church God commissioned church leadership to go and make disciples of all nations to win souls for His kingdom throughout the world instead of standing behind a pulpit in a conventional four walls edifice that we come to know as church or donning themselves with ostentatious titles like bishop apostles prophet or prophetess to cite a few The derailment of God s perspective for church leadership has left billions of people worldwide unreached and disenfranchised from God s words thereby invoking rampant suffering not only from the ravages of wars hunger abject poverty or disease but also the transforming power of the Gospel In the Leadership Practices A Global and Biblical Perspective Drs Cedric and Widza Bryant underscore GodaEUR tm s directives His original intent of authentic biblical leadership designed to reach all people throughout the worldaEURall of which are encapsulated in Genesis 1 26 to Adam and Eve to Noah in Genesis 9 1 and in Mathew 28 19aEUR20 Jesus s mandates to the twelve disciples Go and make disciples of all nations Leadership Practices A Global and Biblical Perspective illuminates our understanding of the biblical inerrancy of leadership by probing on scholars relentless pursuit to further their knowledge of leadership definition and to expose different interpretations that provide a clear picture of what leadership is and how to apply it to reach excellence Could the inexorable pursuits to define leadership and align its practices be the cause of manaEUR tm s biased predispositions from GodaEUR tm s intended purpose A trend that commenced before humanity even existedaEUR The book accentuates the notion that leadership practices according to God s design was to be global and accessibleaEURa Christ centered mandate with tangible and pervasive biblical root that compels leaders to be open to change and to submit to GodaEUR tm s original practices The manuscript provides the reader with a biblically based model of leadership using numerous scriptural case studies that illustrate the differences between what it means to operate as a leader of this world and what it means to be a Christian leader in this world By following a Christ centered model leaders learn how success begins with change and she emphasizes how leaders must first be willing to submit to change themselves before they can guide the process in others The manuscript is filled with extensive research blending scholarly works with scriptural illustrations which collectively produce an insightful repository for leaders to draw upon as they aspire to become a global Christian leader The book has wide applications for church leaders at the local national and global levels aEURDr Richardson Regent University

How Organizations Function and How to Impact Them**, 2021-11-23 Master's Thesis from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1 Otto Beisheim School of Management Vallendar Kellogg WHU Executive MBA language English abstract Despite innovations in management science leaders struggle to adapt their organizations against rapid environmental changes Based on the assumption that this struggle results from obsolete management paradigms this work aims to outline a systemic view of organizations and groups as well as approaches to manage and change them This work adopts a fundamental question What dynamics evolve in organizations and groups or teams as a significant part of organizations that increase or decrease management's influence and the organizations or groups ability to induce change This work delivers a systematic approach

to equip readers with analytical tools to arrive at their own understanding of a wide range of different organizations or groups This literature based work describes causal and systemic theories to explain human behavior based on an analysis of organizations based on systems theory Looking through different lenses provides insights into organizations underlying structures namely the machine game or fa ade metaphors Formal and informal structures and their interactions have been analyzed in different lifecycle stages immobility and replaceability The construction of a systemic view of groups shows group specific dynamics and behavioral patterns The specialization in groups drives local best practices expected informal behavior and a narrowed perspective of what is essential for the department or organization These local rationalities are critical to leading groups or organizations The explanations of groups and organizations clarify that a hierarchical understanding or an understanding that an organization or even its culture can be rationally planned is misleading Organizations continually adjust to changing conditions in their environment but unfortunately not as their executives intend Therefore the change of organizations or groups is hypothesis driven experimentation that integrates the change of the change from the beginning Systemic interventions are based on observations and do not claim predictability The manager s primary tasks are to develop team reflexivity and autonomous decision making as well as increase variation and promote selections in the group or organization Incremental approaches to management group reflection and development and lateral and formal mechanisms of influence must be utilized in combination with a comprehensive organizational analysis
