TITLE

## Won't You Be My Neighbor: My Moment as a Leader

INTRO

The room was filled with the gentle hum of microphones and video cameras, cut only by the occasional cough or cleared throat. It was easy to feel out of place in this room full of wood furniture, leather seats, and powerful men capable of changing not just my life, but an entire sector of television programming as we knew it. I had never thought of myself as a leader, but I also knew that this was about something bigger than me, something that I could actually influence.

I took a deep breath and began to talk. I wasn't known to have a particularly commanding or powerful voice, but people always seemed to listen, including these men with their name placards and tall seats. They had been ready to cut funding for public broadcasting, which included programming that they had never seen. I was simply someone who lived in a neighborhood and cared about children's education, beyond just math and reading. All I could do was be honest.

CONCLUSION

To me, leadership is about connection. I know that I have a voice and an immense dedication to emotional intelligence in children. My ability to focus on other people goes hand-in-hand with my ability to speak through a tiger puppet. Both are about closing gaps and bringing people closer to a basic understanding. I hope to use my leadership abilities within the field of psychology to build more connections between people and communities.

BODY

- Write a narrative that uses your own voice and style
- Be humble, but don't be down on yourself

**Leadership** Antonio L. Ellis, 2016-02-10 This book shares the thoughts of mostly North American scholars on many interrelated topics that have not previously been linked in academic research. The focus of the book is the belief that the Ed D can prepare highly competent justice oriented scholars who will be engaged with communities. Among these future leaders the contributors envision educators who not only lead public schools but also private foundations, not for profit organizations and community centers. An outstanding feature of this volume is that each chapter highlights existing and emerging issues such as but not limited to candidate recruitment and admission policies, program funding fees and student expenses, academic support services, faculty recruitment, compensation, evaluation and promotion models, on site on line instruction, internship policy, opportunities for graduate student employment, publishing and conference engagement, student supervision protocols and dissertation and capstone project parameters. In addition, the book explores cultural and socio political contexts, public private sector relationships and the kinds of legislation that frame Ed D theory, policy and practice from a social justice perspective. At its best, higher education is an indispensable space for spotlighting challenging and addressing injustice. This important volume offers us the conceptual, methodological, empirical and pedagogical tools necessary for understanding the relationship between doctoral education and social justice work. Antonio Ellis has assembled an impressive array of scholars who help us understand the promise and possibility of Ed D programs. Marc Lamont Hill, Host for the Black Entertainment Network Contributor for CNN and Distinguished Professor of African American Studies at Morehouse College. This volume helps to clarify what is meant by social justice in school leadership settings and provides both philosophical and theoretical perspectives as well as strategies and curricular content that can assist in developing a common sense understanding of social justice. The development of a mental frame of reference is critical to being able to transfer that understanding and curricular content into beliefs and practices. As a professor of educational leadership and a college administrator, I am most pleased to find a volume that provides perspectives and strategies which can be employed by academicians teaching in leadership programs and practitioners as they lead and prepare others to become leaders.
