The Unknowable in Literature and Material Culture Margot Irvine, Jeremy Worth, 2019-10-08

Literature strives to interpret and explain the unknown and to propose ways in which to engage with it even if at least initially these keys exist only in the realm of the imagination. This is one of the many important qualities that draw us to study literature and to marvel at the creative understandings that it offers. However many questions call for further exploration: how does something unknowable, unspeakable become a subject that can be examined and debated? How have literary and scientific communities entered into the dialogue and exchange that are crucial to the consolidation of knowledge? By what processes can we come to know and understand that which remains hidden, undocumented, unspoken, poorly understood, the memories, secrets, unknowable and unspeakable truths of public and private human lives? Inspired by questions such as these, the contributors to this volume reflect on fin de siècle discourses around homosexuality and sexual inversion on Émile Zola as seeker of concealed truths and figure of scandal on the modes and crises of representing human experience in literary and visual forms and on the dialogic space between self and other.

Dansel, 2023-11-10. Spécialiste des comportements de la marge, Michel Dansel, auteur de plusieurs ouvrages sur des cas parfois très lourds de la psychologie comportementale, pose pour la première fois le verre grossissant sur les excentriques. Ces empenchements de tourner en rond comment sont-ils perçus par les gens de la norme? L'auteur de ce testament brosse ici une fresque sur ceux que l'on qualifie d'excentriques. Qui sont-ils au juste? Leur classification aussi vaste et floue qu'imprécise n'a jamais fait l'objet d'une approche aussi pertinente.
