## MAN Wants Tougher Legislations On Illegal Mining

BY MICHAEL EKPEDE/LEADER

Wardens and vigilantes' activities of illegal mining in the country, governments or military leaders have been urged to

enforce regulations to prevent furthering illegal mining. In place of wardens and vigilantes, the Minister of Mines, Association of Nigeria

MINA said the need had over the years led to the loss of a large chunk of illegally mined minerals. MINA, adding that conventional proceeds of illegal exploration and exploitation of

solid minerals had become a national scourge and big embarrassment to the country. Chairman of the Mines State Chapter of MINA, Comrade Tade

EDINA, lamented that those illegal mining activities have resulted in significant economic losses to both the federal and state governments.

BSEIU Leadership News Building Service Employees' International Union,1961      **Culture and Leadership Across the World** Jagdeep S. Chhokar,Felix C. Brodbeck,Robert J. House,2007-04-05 Culture and Leadership Across the World The GLOBE Book of In Depth Studies of 25 Societies is the second major publication of GLOBE Global Leadership and Organizational Behavior Effectiveness a groundbreaking large scale project on international management research featuring contributions from nearly 18 000 middle managers from 1 000 organizations      **Communicating and Strategising Leadership in British Elections** Alia Middleton,2021-03-17 This book concentrates on the leaders of the Conservatives Labour and Liberal Democrats in British general election campaigns between 2010 and 2019 by exploring where they visit during the campaign and why the impact they have and how leadership is represented in the Press It establishes the key strategic underpinnings for their visits and the types of activities they undertake in a uniquely British context The degree to which leaders and their visits form an important dimension of voter behaviour is also considered Moreover the book explores how the Press delve into the personal lives of lesser known opposition leaders and scrutinise the policies of Prime Ministers The types of visits by leaders that become newsworthy are identified alongside their importance as a framing tool in election reporting Beyond the leaders themselves press reporting on their personal relationships is scrutinised showing an increased acceptance of active partnership      *Black Leadership for Social Change* Jacob U. Gordon,2000-08-30 This book presents a comprehensive overview of Black leadership in every aspect of American life including movements for social justice education business and politics In the quest for human rights and social advancement African American leaders have emerged to lead the fight to overcome racial and economic barriers This struggle has influenced the exercise of Black leadership in many other areas and the author uses an interdisciplinary approach to reveal the changes continuities and variety of African American approaches to effective leadership The book also suggests a theoretical framework for future research on the impact of Black leadership in America A wide range of issues are considered in this volume beginning with the definition of leadership and the concept of Black leadership Gordon then considers outstanding examples of Black leadership in contemporary America in a variety of fields Scholars and students in history political science and ethnic studies will find this an important resource for understanding Black leadership and its impact on American life      Political Leadership and the European Commission Presidency Henriette Müller,2020 The EU's pluralistic nonhierarchical system of multilevel governance lacks clear structures of both government and opposition According to the EU treaties the presidency of the European Commission is thus not explicitly expected to exercise political leadership However the position cannot effectively be exercised without any demonstration of such leadership due to its many leadership functions Examining this curious mix of strong political demands weak institutional powers and need for political leadership this book systematically analyses the political leadership performance of the presidents of the European Commission throughout the process of

European integration The basic argument is that Commission presidents matter not only in the process of European integration but that their impact varies according to how the different incumbents deal with the institutional structure and the situational circumstances and thus their available strategic choices The primary research question is thus What makes political leadership in European governance successful and to what extent and why do Commission presidents differ in their leadership performance In addressing this question this book departs from existing research on EU leadership which has to date often analysed either the EU's institutional structure and its potential for leadership or mainly focused on only the most recent incumbents in case study analyses Focusing on the multiterm European Commission presidents Walter Hallstein Jacques Delors and Jos Manuel Barroso this book conceptualizes their political leadership as a performance and thus systematically analyzes their agenda setting mediative institutional and public outreach performance over the entire course of their presidential terms

**Business Schools, Leadership and the Sustainable Development Goals** Lars Moratis, Frans Melissen, 2022-12-30 Business Schools Leadership and Sustainable Development Goals The Future of Responsible Management Education is the sixth book in the series Citizenship and Sustainability in Organizations It contains chapters from various scholars and practitioners in the field of responsible management education RME Through introspection through celebrating successes and learning from failures retrospection and through looking forward prospecting it aims to inspire a future of management education and leadership development that demonstrates its relevance to sustainable development In doing so it touches upon the grand societal challenges of our time as illustrated by the United Nations Sustainable Development Goals and discusses how business schools and other providers of management education could and should contribute to overcoming these challenges It argues that management education needs to educate future leaders in a way that no longer hampers but truly accelerates the process of sustainable development This book offers a collection of thought provoking ideas vivid stories including personal accounts and experiences and appealing and engaged forecasts visions and ideas about management education and leadership development for sustainability Hence it is a must read for anyone interested in or involved in RME
