**Deadly Biocultures** Nadine Ehlers, Shiloh Krupar, 2019-12-17 A trenchant analysis of the dark side of regulatory life making today In their seemingly relentless pursuit of life do contemporary U S biocultures where biomedicine extends beyond the formal institutions of the clinic hospital and lab to everyday cultural practices also engage in a deadly endeavor Challenging us to question their implications *Deadly Biocultures* shows that efforts to make live are accompanied by the twin operation of let die they validate and enhance lives seen as economically viable self sustaining productive and oriented toward the future and optimism while reinforcing inequitable distributions of life based on race class gender and disability Affirming life can obscure death create deadly conditions and even kill *Deadly Biocultures* examines the affirmation to hope target thrive secure and green in the respective biocultures of cancer race based health fatness aging and the afterlife Its chapters focus on specific practices technologies or techniques that ostensibly affirm life and suggest life's inextricable links to capital but that also engender a politics of death

and erasure The authors ultimately ask what alternative social forms and individual practices might be mapped onto or intersect with biomedicine for more equitable biofutures

*The Instability of Truth* Rebecca Lemov, 2025-03-25 An acclaimed historian of science uncovers the hidden history of brainwashing and its troubling implications for today Because brainwashing affects both the world and our observation of the world we often don't recognize it while it's happening unless we know where to look As Rebecca Lemov writes in *The Instability of Truth* Brainwashing erases itself What we call brainwashing is more common than we think it is not so much what happens to other people as what can happen to anyone The *Instability of Truth* exposes the myriad ways our minds can be controlled against our will from the brainwashing techniques used against American POWs in North Korea to the soft brainwashing of social media doomscrolling and behavior shaping In our increasingly data driven world anyone can fall victim to mind control Lemov identifies invasive forms of emotional engineering that exploit trauma and addiction to coerce and persuade in everyday life Tracing the word brainwashing from deep in the files of an operative of the U S Office of Strategic Services in the 1950s to the pioneering research of Robert Jay Lifton to the public trials of cult leaders and the case of Patty Hearst Lemov also studies how the idea of mind control has spread across the globe and penetrated courtrooms secret labs military schools and today's digital sites The *Instability of Truth* offers lessons from mind control episodes past and present Truth is always subject to question in more mundane walks of life than most people believe and Lemov equips us for the increasing challenges we face from social media AI and an unprecedented global form of surveillance capitalism The *Instability of Truth* develops a rigorous new understanding of both brainwashing's paradoxes and its emotional roots by giving voice to brainwashers the brainwashed and third party observers alike

**Spacematrix** Meta Berghauser Pont, Per Haupt, 2023-05-23 *Spacematrix* explores the potential of urban density as a tool for urban planning and design This revised and extended edition of Meta Berghauser Pont and Per Haupt's 2010 volume includes an extensive analysis of the relations between density urban form and performance a prerequisite for understanding and successfully predicting the effects of specific designs and planning proposals The density database that is an integral part of the book has been expanded and now includes 142 examples from five capitals in Europe as well as examples from Asia Berghauser Pont and Haupt demystify the use of concepts such as urbanity compact city and park city by challenging the reliability of such concepts and critically examining the possibility of redefining them through quantification using multiple density measures *Spacematrix* is of interest to professionals working in the field of urbanism such as architects urban planners and designers as well as developers economists engineers and policymakers It also offers researchers a method to quantitatively describe urban form and connect this to a wide range of performances
