Accounting for Managers 3e is geared towards professors who love Garrison's market leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions and Segment Reporting and Decentralization; however, the job order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting: planning, control and decision making. McGraw Hill's Connect Accounting offers a complete digital solution that combines all the great features of Connect Accounting along with access to an online version of Managerial Accounting for Managers 3e so that students can easily refer back to the text for review and guidance. This media-rich eBook links directly to tutorials and online resources and offers additional functionality like taking notes and highlighting key passages for reviewing later. Contained within Connect Accounting is McGraw Hill's adaptive learning system LearnSmart which is designed to help students learn faster, study more efficiently and retain more knowledge for greater success. Hartgraves, 2003. Taking a much more strategic approach, the focus of this book is on the full range of cost drivers within the value chain rather than on just the distinctions between product/non-product costs and unit variable/fixed costs. Specially designed for managerial accountants, this updated edition thoroughly integrates issues that have emerged during the past ten years. By taking a value chain approach and stressing management accounting as an employee and management empowerment tool, the content is relevant, interesting and usable for those whose primary concerns are something more than financial reporting.
