Iowa State University has more than 100 majors that provide virtually unlimited academic opportunities. In this brochure you'll find information about your specific area of interest and a family of related majors that you may want to explore during your adventure here at Iowa State. Please use the contact information listed inside and let us help you discover your passions, unlock your potential, and **enjoy the adventure.**

Words to the wise

Whether your interest lies in public relations, technical or creative writing, education, or foreign languages, your studies at Iowa State will prepare you for the world of professional communication.

National studies about workplace correspondence indicate that employers value communication skills as much as or more than any technical or scientific skills you bring to the job.

Your communication background supports your work in any field where writing, design, or speaking is required. Many students secure positions such as technical writer, journalist, speech writer, politician, minister, translator, retailer, and teacher. Because advanced communication skills are valued in any company, you may consider complementing another degree program with a communication major or minor.

Can we talk?

We've built a reputation on it!

Iowa State's faculty have a history of achieving some of the most prestigious accomplishments

in their fields. Among these accomplishments: a Pulitzer Prize for editorial writing, a national teaching award for work in advertising and new communication technologies, six National Council of Teachers of English Awards for the best scholarly articles in technical communication, two awards for the best books in technical/professional communication, editor of the most prestigious journal in technical communication, and five American Business Communication Awards.

Our graduates include Pulitzer Prize winners, the editor of the Wall Street Journal, directors, producers, authors, reporters, and public relations and advertising leaders.

You will learn from faculty actively participating in determining the future of communication, especially in the area of electronic media and communication technologies.

How will you tap into the lines of communication?

Faculty serve as mentors as you develop your own interests. Many programs utilize industry resources to provide you with a market perspective. Several programs require

internships and work to place you with companies that may be difficult to access as a job applicant. These connections follow you through your professional career.

Catch the wave to your future

At Iowa State you have access to the latest educational technologies, so you can be competitive in a job market where the international trend is to utilize electronic media as the preferred method for conducting business activities.

Our Greenlee School of Journalism and Communication has two fully equipped television studios. Almost every building on campus is equipped with student computer laboratories, which feature the latest hardware and software for written and visual communication.
