Manual of Physical and Vocal Training Lewis Baxter Monroe, 1869 **Manual of Physical and Vocal Training, for the Use of Schools, and for Private Instruction** Lewis Baxter Monroe, 1873 Physical and Vocal Training Lewis Baxter Monroe, 2015-06-16 Excerpt from Physical and Vocal Training For School Use and for Private Instruction This manual is prepared in response to repeated requests for some written embodiment of the method of Vocal and Physical Culture practised by the writer during the last ten years and taught in the Boston public schools under his supervision for three years past It is with no little hesitation that he attempts the difficult task of conveying by printed words that which requires the living voice for its proper exemplification It is impossible to prescribe an inflexible course of instruction one which will not require the ingenuity of the teacher to adapt it to individual cases Nevertheless even an imperfect outline and this assumes to be nothing more will serve as a guide to those who wish to adopt to any extent this mode of training For the faults and imperfections in these pages the writer is alone responsible and he would not claim an undue share of credit for anything of worth which the work may contain He has availed himself of the labors of the numerous investigators who have preceded him in these fields About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Anatomy of Voice** Regnier Winsel, 1975 **Manual of Physical and Vocal Training, for the Use of Schools and for Private Instruction** Lewis B. (Lewis Baxter) Monroe, 2012-08-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Manual of Physical and Vocal Training ... Illustrated by H. Billings** Lewis B. MONROE, 1869 Manual of Physical and Vocal Training, for the Use of Schools and for Private Instruction Lewis B. Monroe, 2008-10 PREFACE THE Author of this very practical treatise on Scotch Loch Fishing desires clearly that it may be of use to all who had it He does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible Everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible The writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general This section

is interleaved with blank sheets for the readers notes The Author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch fisher is depend ent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing
