**Le désert des tartares** - NE Dino Buzzati, 2012-12-20 Un chef d'œuvre de Dino Buzzati Le monde de Buzzati comme celui de Kafka est plein de détours la manière des labyrinthes ce carrefour d'espace et de temps où l'homme est placé et qu'il se place avec lui sans pouvoir le laisser derrière lui univers mobile dont les dimensions sont celles d'une cellule de prison dont on barbouille les murs aux couleurs de l'infini c'est le bastion où l'on guette jour après jour l'invasion des Tartares sans savoir s'il existe réellement des Tartares ni s'il y en a eu autrefois ni si le danger existe de les voir surgir au galop de ce désert où l'on use ses yeux et sa vie scruter l'horizon Marcel Brion **Le désert des Tartares** Karl Marx, 1963 Le Désert des Tartares

Kaiser, Kathrin Thiele, 2018-10-18 Diffraction patterns in quantum physics evidence the fact that the behavior of matter is the result of its entanglements with measurement or as Karen Barad suggests the entanglement of matter and meaning In this sense therefore phenomena including texts cultural agents or life forms are the results of their relational onto epistemological entanglements and not individual entities that separately pre-exist their joint becoming As such diffraction proposes a new understanding of difference no longer a dualist understanding but one going beyond binaries Diffraction is about patterns constellations relationalities From this angle the book explores diffraction which has begun to impact critical theories and humanities debates especially via new materialist feminisms STS and quantum thought but is often used without further reflection upon its implications or potentials Doing just that the book also pursues new routes for the onto epistemological and ethical challenges that arise from our experience of the world as relational and radically immanent because if we start from the ideas of immanence and entanglement our conceptions of self and other culture and nature cultural and sexual difference our epistemological procedures and disciplinary boundaries have to be rethought and adjusted The book offers an in-depth consideration of diffraction as a quantum understanding of difference and as a new critical reading method It reflects on its import in humanities debates and thereby also on some of the most inspiring work recently done at the crossroads of science studies feminist studies and the critical humanities This book was originally published as a special issue of Parallax **Le desert des Tartares** Dino Buzzati, 1992 **Le Désert des Tartares** Dino Buzzati, 1969 **Le désert des Tartares** Dino Buzzati, 1978
