

"GUARANTEED TO RAISE TEMPERATURES."

Sex is Shindo's main objective and he rarely lets us lose sight of it. Shindo is a discerning and compassionate artisan in his treatment of the theme. While its sex is often explicit, one is left with tender and symbolic effects of the housemaid's subtle efforts to lead her master back to masculinity."

—Wexler, N.Y. Times

"HUMAN, REALISTIC, TASTEFUL!" Shindo makes few films but when he does his movies tell a story, human and realistic. 'Lost Sex' deals with the humiliation and loneliness of a man rendered impotent at Hiroshima. Shindo presents the man's plight in a forthright way, in good taste, eliciting compassion. Photography is stunning."

—Wanda Hale, Daily News

"SHINDO REMAINS THE ARTIST OF SIGHT AND INSIGHT!" He has taken what might be in other hands an exploitation subject, the sex drive, and given it dignity and understanding!"

—Winstein, N.Y. Post

Lost In Sex:

Lost Sex Isa Schön, Koen Martens, Peter van Dijk, 2009-09-22 Sex is the queen of problems in evolutionary biology. Generations of researchers have investigated one of the last remaining evolutionary paradoxes: why sex exists at all. Given that sexual reproduction is costly from an evolutionary point of view, one could wonder why not all animals and plants reproduce asexually. Dozens of contemporary hypotheses attempt to explain the prevalence of sex and its advantages and predict the early extinction of fully asexual lineages. The major theme of this book is what is the fate of animal and plant groups in which sex is lost. Initial chapters discuss theory behind asexual life: what major disadvantages do asexual groups have to face? What are the genetic and ecological consequences? And what does this theory predict for more applied aspects of asexual life, for example in agricultural pests, diseases, as well as in cultural crops such as grapes. Case studies in many animals, focusing on both invertebrates and vertebrates, and plants reveal parallel but also singularly novel adaptations to the absence of meiosis and syngamy. And last but not least: are asexuals really doomed to early extinction, or do genuine ancient asexuals exist? This book assembles contributions from the most important research groups dealing with asexual evolution in eukaryotes. It is a milestone in research on parthenogenesis and will be useful to undergraduate as well as graduate students and to senior researchers in all fields of evolutionary biology, as the paradox of sex remains its queen of problems. *"Lost in Transition". Finding an own Identity as a Transsexual in Iran* Linda Hewitt, 2020-02-20 Seminar paper from the year 2015 in the subject Cultural Studies / Middle Eastern Studies, grade 1.3, Lund University, language English, abstract: This paper describes how transsexuals in Iran negotiate their everyday life within social and cultural boundaries and how post-operation transsexuals are recognised by others. It gives an overview of the legal situation, the transition process, and describes socio-cultural issues of transsexuals while finding their own identity in Iranian society. Since Ayatollah Khomeini published a fatwa that permitted sex reassignment surgery (SRS) for hermaphrodites, the Iranian government uses methods to enforce adherence of gender roles and defines transsexuals as people with a Gender Identity Disorder (GID) who need to be treated. The aim of the fatwa was to correct the 'true sex' in order to prevent same-sex desire and maintain society's heteronormative morality. The illegality of homosexual acts supported the development of sex change operations in Iran, because transsexuality became a more accepted way of being non-heteronormative as they are perceived to be born in the 'wrong body'. However, despite the legalisation of SRS, social oppression towards transsexuals is still prevalent in Iranian society. Prejudices and discrimination create a transphobic discourse within the society. Many transsexuals have to deal with identity issues, social oppression, and often challenge the essential discourse of gender/sex while seeking for recognition within their social environment. Transsexuals do not seek for recognition of identity politics but rather for recognition of status in society in order to become an equal social participant. The legalisation of SRS is not progressive but rather reinforces gender apartheid and homophobia, as many homosexuals are forced to change in order to escape punishments of homosexual acts. *Employment Bulletin*
