

Official Gazette

MEMORANDUM CIRCULAR NO. 81

Office of the President
Malacañang

MEMORANDUM CIRCULAR NO. 81

To provide government employees full opportunity to properly observe Maundy Thursday and Good Friday on 17-18 April 2025, and to allow them to travel to and from the different regions in the country, the following arrangements are hereby adopted in government offices on 18 April 2025: (a) work from home from 8:00 in the morning to 12:00 in the afternoon, subject to existing laws, rules and regulations; and (b) suspension of work in government offices, from 12:00 in the afternoon onwards.

However, agencies whose functions involve the delivery of basic and health services, preparedness/response to disasters and calamities, and/or the performance of other vital services shall continue with their operations under usual working arrangements and render the necessary services.

The adoption of work from home and suspension of work for private companies and offices is left to the discretion of their respective employers.

This Circular shall take effect immediately.

By authority of the President:

EXECUTIVE SECRETARY 

Manila, 14 April 2025

Memorandum Pgeography 2013 September

Karin Nielsen-Saines

Memorandum Pgeography 2013 September:

Cash Not Care Mo Stewart, 2016-09-14 Mo Stewart is a former healthcare professional a disabled female veteran and an independent researcher This book is the culmination of six years of self funded research and the evidence exposes the influence of corporate America since 1992 with the future welfare reforms of the UK The impact of the enforced austerity measures of the UK government is identified as they negatively affect the welfare and the survival of the chronically sick and disabled population in receipt of welfare benefits when unfit to work The research has informed welfare reform debates in the House of Lords and the House of Commons since 2011 and contributed to the evidence used by the United Nations to investigate the UK government for breaches of the Human Rights of sick and disabled people Endorsed by the disabled community and by academics the research has identified the adoption of lethal social policies copied from American social security policies and linked to the death of thousands of the most vulnerable of all as the UK welfare state is systematically demolished as all planned over thirty years ago by a previous Conservative government National Uniform Legislation

Guzyal Hill, 2022-08-11 This book aims to develop a conceptual framework upon which to draw for analysis of new and existing national reforms in Australia Due to growth in the volume and complexity of national uniform legislation law reform agencies the Commonwealth state and territory governments and policy institutions have more rather than less to do This book explores how they are required to respond to debates among actors from divergent geographical commercial and ideological backgrounds who sometimes demonstrate irreconcilable differences in values and perspectives From a policy implication perspective this book summarises a vast quantity of original and complex data so that it can be applied in the field among policymakers reformers legislative drafters students and the wider audience of legal practitioners working with harmonised legislation in federations This book acknowledges that uniform legislation is not a panacea for all legal challenges currently faced by federations However this book takes a step towards demystifying the many confusing factors that have obscured the underlying general principles A working theory of federal harmonisation enables the art of the impossible to become a practical reality This book condenses data on legislation in models The models enable transparent evidence based decisions in the process of a federation s harmonisation to progress regulatory best practices and achieve more reliable sustainable results Algorithms of Armageddon

George Galdorisi, Sam J Tangredi, 2024-03-12 It is unclear if U S policy makers and military leaders fully realize that we have already been thrust into an artificial intelligence AI race with authoritarian powers Today the United States peer adversaries China and Russia have made clear their intentions to make major investments in AI and insert this technology into their military systems sensors and weapons Their goal is to gain an asymmetric advantage over the U S military The implications for our national security are many and complex *Algorithms of Armageddon* examines this most pressing security issue in a clear insightful delivery by two experts Authors George Galdorisi and Sam J Tangredi are national security professionals who deal with AI on a day to day basis in their work in both

the technical and policy arenas Opening chapters explain the fundamentals of what constitutes big data machine learning and artificial intelligence They investigate the convergence of AI with other technologies and how these systems will interact with humans Critical to the issue is the manner by which AI is being developed and utilized by Russia and China The central chapters of the work address the weaponizing of AI through interaction with other technologies man machine teaming and autonomous weapons systems The authors cover in depth debates surrounding the AI genie out of the bottle controversy AI arms races and the resulting impact on policy and the laws of war Given that global powers are leading large scale development of AI it is likely that use of this technology will be global in extent Will AI enabled military weapons systems lead to full scale global war Can such a conflict be avoided The later chapters of the work explore these questions point to the possibility of humans failing to control military AI applications and conclude that the dangers for the United States are real Neither a protest against AI nor a speculative work on how AI could replace humans Algorithms of Armageddon provides a time critical understanding of why AI is being implemented through state weaponization the realities for the global power balance and more importantly U S national security Galdorisi and Tangredi propose a national dialogue that focuses on the need for U S military to have access to the latest AI enabled technology in order to provide security and prosperity to the American people

Ethnic Relations in Post-Soviet Russia Andrew Foxall,2014-10-03 While the collapse of communism in Russia was relatively peaceful ethnic relations have been deteriorating since then This deterioration poses a threat to the functioning of the Russian state and is a major obstacle to its future development Analysing ethnic relations in the North Caucasus this book demonstrates how a myriad of processes that characterised post Soviet transition including demographic change economic upheaval geopolitical instability and political re structuring have affected daily life for citizens It raises important questions about ethnicity identity nationalism sovereignty and territoriality in the post Soviet space

The United States Government Manual 2013 Office of the Federal Register (U S),Office of the Federal Register (U.S.) Staff,2013-10-19

New Labor in New York Ruth Milkman, Edward Ott, 2014-03-07 New York City boasts a higher rate of unionization than any other major U S city roughly double the national average but the city's unions have suffered steady and relentless decline especially in the private sector With higher levels of income inequality than any other large city in the nation New York today is home to a large and growing precariat workers with little or no employment security who are often excluded from the basic legal protections that unions struggled for and won in the twentieth century Community based organizations and worker centers have developed the most promising

approach to organizing the new precariat and to addressing the crisis facing the labor movement Home to some of the nation's very first worker centers New York City today has the single largest concentration of these organizations in the United States yet until now no one has documented their efforts New Labor in New York includes thirteen fine grained case studies of recent campaigns by worker centers and unions each of which is based on original research and participant observation Some of the campaigns documented here involve taxi drivers street vendors and domestic workers as well as middle strata freelancers all of whom are excluded from basic employment laws Other cases focus on supermarket retail and restaurant workers who are nominally covered by such laws but who often experience wage theft and other legal violations still other campaigns are not restricted to a single occupation or industry This book offers a richly detailed portrait of the new labor movement in New York City as well as several recent efforts to expand that movement from the local to the national scale
