

Why Do Men Want Oral Sex?

Blowjobs, or any form of physical or sexual touching given to a man unidirectionally from a woman, are one of the few times that a man can feel that his wife is truly focusing on HIM and caring for HIM rather than tallying up what he does and provides.

The idea of a woman focusing on his pleasure and taking care of him is something that men yearn for and do not feel they have the right to express, at least outside the bedroom.

Men Who Want To Be Domatied Why:

Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity Kopano Ratele, 2022-09 This book represents Kopano Ratele's meditations on love violence and masculinity Men in our society Ratele contends suffer from an unrecognised painful yet consequential love hunger that sets in during boyhood This need for love may lie at the root of some masculine violence Ultimately the book seeks to imagine the possibility of a more loving masculinity in a society awash with violence Ratele argues that just as the beliefs and practices relating to gender sexuality and the nature of love are constantly being challenged and revised so our ideas about masculinity and men's and boys capacity to show genuine loving care for each other and for women can evolve too Back cover

What Women Want--What Men Want John Marshall Townsend, 1998-04-23 What Women Want What Men Want offers compelling new evidence about the real reasons behind men's and women's differing sexual psychologies and sheds new light on what men and women look for in a mate the predicament of marriage in the modern world the relation between sex and emotion and many other hotly debated questions John Townsend draws on 2000 questionnaires and extensive quotations from 200 intimate interviews to show how deep seated desires and emotions guide our actions in dating sexual relationships and marriage Townsend argues against the politically correct belief that differences in sexual behavior are culturally constructed and shows that these differences are universal and rooted in our evolutionary past In a fascinating series of experiments men and women were asked to indicate preferences for potential mates based on their attractiveness and apparent economic status Women preferred expensively dressed men to more attractive but apparently less successful men and men chose more attractive women regardless of their professional status Townsend also found that men are inclined to value casual sexual relations whereas women cannot easily separate sexual relations from the need for emotional attachment and economic security Lucidly and accessibly written What Women Want What Men Want brings new clarity to one of the most intractable debates of our time
