Mark From Earth:

The Green Years, 1964-1976 Gregg Coodley ,David Sarasohn,2021-09-30 In The Green Years 1964 1976 Gregg Coodley and David Sarasohn offer the first comprehensive history of the period when the United States created the legislative legal and administrative structures for environmental protection that are still in place over fifty years later Coodley and Sarasohn tell a dramatic story of cultural change grassroots activism and political leadership that led to the passage of a host of laws attacking pollution under President Johnson At the same time with Stewart Udall as secretary of the interior the Wilderness Act the Wild and Scenic Rivers Act and other land protection measures were passed and the department shifted its focus from western resource development to broader national conservation issues The magnitude of what was accomplished was without precedent even under conservation minded presidents like the two Roosevelts The fast paced story the authors tell is not only about the Democratic Party in this era there was still a vital Republican conservation tradition In the 1960s Republicans were chronologically as close to Teddy Roosevelt as to Donald Trump In both the House and Senate and in the Nixon and Ford administrations Republicans played vital roles It was President Nixon who established the Environmental Protection Agency and signed into law the 1970 Clean Air Act revisions in 1972 to the Clean Water Act and the 1973 Endangered Species Act Under Nixon actions were taken to protect the oceans forests coastal zones and grasslands while regulating chemicals pesticides and garbage The authors analyze the full range of transformations during the Green Years from the creation of entirely new pollution control industries to backpacking becoming mass recreation to how revelations about chemical exposure spurred the natural food movement And not least the tectonic shift in the political landscape of the United States with the western states becoming Republican bastions and centers of ongoing backlash against the federal government The Green Years 1964 1976 is the story of environmental progress in the midst of war and civil unrest and of the lessons we can learn for our future White Earth Reservation. or Narrative Fictions? Charles W. Hedrick, 2016-06-10 Hedrick contends that parables do not teach moral and religious lessons they are not in whole or part theological figures for the church Rather parables are realistic narrative fictions that like all effective fiction literature are designed to draw readers into story worlds where they make discoveries about themselves by finding their ideas challenged and subverted or affirmed The parables have endings but not final resolutions because the endings raise new complications for careful readers which require further resolution The narrative contexts and interpretations supplied by the evangelists constitute an attempt by the early church to bring the secular narratives of Jesus under the control of the church's later religious perspectives Each narrative represents a fragment of Jesus's secular vision of reality Finding himself outside the mainstream of parables scholarship both ecclesiastical and critical Hedrick explored a literary approach to the parables in a series of essays that among other things set out the basic rationale for a literary approach to the parables of Jesus These early essays form the central section of the book They are published here in edited form along with unpublished critiques of a thoroughgoing literary approach and his response The Writings of Mark Twain: The innocents abroad; or, The new Pilgrims' progress Mark Twain, Charles Dudley Warner, 1911 **The Writings of Mark Twain: Sketches, new and old** Mark Twain, 1903 **The Writings of Mark Twain [pseud.]: The innocents abroad, or, The new Pilgrim's progress** Mark Twain, 1899 Grants and Awards for the Fiscal Year Ended ...
