### **Mental Health and Work Fit Mind, Fit Job From Evidence to Practice in Mental Health and Work**

OECD,2015-03-04 Following an introductory report Sick on the Job Myths and Realities about Mental Health and Work and nine country reports this final synthesis report summarizes the findings from the participating countries and makes the case for a stronger policy response *Mental Health and Work Fitter Minds, Fitter Jobs From Awareness to Change in Integrated Mental Health, Skills and Work Policies* OECD,2021-11-04 A series of reviews of mental health and work policies in selected OECD countries revealed the challenge of mental health for social and labour market outcomes and policies and the high costs of the continued stigmatisation of mental health for individuals employers and societies To better respond to this challenge in early 2016 health and employment ministers from the 38 OECD countries endorsed a Recommendation of the Council on Integrated Mental Health Skills and Work Policy *Fit Mind, Fit Job* Organization for Economic Cooperation and Development,2015 The costs of mental ill health for individuals employers and society at large are enormous Mental illness is responsible for a very significant loss of potential labour supply high rates of unemployment and a high incidence of sickness absence and reduced productivity at work Following an introductory report Sick on the Job Myths and Realities about Mental Health and Work and nine country reports this final synthesis report summarizes the findings from the participating countries and makes the case for a stronger policy response *Mental Health and Work: New Zealand* OECD,2018-12-13 Tackling mental health problems of the working age population is a key issue for labour market and social policies in OECD countries not just for health systems Governments increasingly recognise that policy has a major role to play in keeping people with mental health conditions **The Routledge Handbook of International Development, Mental Health and Wellbeing** Laura Davidson,2019-06-19 Mental health has always been a low priority worldwide Yet more than 650 million people are estimated to meet diagnostic criteria for common mental disorders such as depression and anxiety with almost three quarters of that burden in low and middle income countries Nowhere in the world does mental health enjoy parity with physical health Notwithstanding astonishing medical advancements in treatments for physical illnesses mental disorder continues to have a startlingly high mortality rate However despite its widespread neglect there is now an emerging international imperative to improve global mental health and wellbeing The UN s current international development agenda finalised at the end of 2015 contains 17 Sustainable Development Goals SDGs including SDG3 which seeks to ensure healthy lives and promote wellbeing for all at all ages Although much broader in focus than the previous eight Millennium Development Goals MDGs the need for worldwide improvement in mental health has finally been recognised This Handbook addresses the new UN agenda in the context of mental health and sustainable development examining its implications for national and international policy makers decision makers researchers and funding agencies Conceptual evidence based and practical discussions crossing a range of disciplines are presented from the world s leading mental health experts Together

they explore why a commitment to investing in mental health for the fulfilment of SDG3 ought to be an absolute global priority
