Le Nouvel Art De La Guerre Histoire:

From the Napoleonic Empire to the Age of Empire Thomas Dodman, Aurélien Lignereux, 2023-03-28 This book explores imperial entanglements to reassess the Napoleonic Empire as a missing link or at least an important chain in the global and longue dur e history of Empires In recent years Napoleonic studies have belatedly but resolutely embraced the transnational historiographical turn vastly expanding the field s geographical scope Its canonical chronological boundaries on the other hand appear increasingly narrow against this wider backdrop giving the impression of a parenthetical almost anachronistic aside from 1799 to 1815 What connects and what doesn t connect the Napoleonic Empire to the Age of Empire remains by and large an open question Put another way this book attempts to locate the Napoleonic empire in World History

the global community It examines the implications of recognition theory in helping to understand the problem of conflict and the possibilities for forging a form of global ethical community This book was published as a special issue of Global Discourse
