same time the collection also problematizes the comparison the goal is to make clear what African literatures have in common but also where they diverge What difference do distinct literary traditions readerships and publishing patterns make to literatures which share a common thematic and so many of the same questions and needs By juxtaposing contemporary texts from several traditions the intention of this collection is to bring out the themes that are currently dominant in African literatures generally After a preface by Liz Gunner and a wide ranging introduction by the editors the collection presents keynote essays on new paradigms in African literature before treating specific themes recent crime fiction the Afrikaans and anglophone novel feminist literature migration and studies of recent works by individual authors such as Andr  Brink Henri D mbo Pie Tshibanda Bessora Nadine Gordimer and Paulina Chiziane as well as the South African television series Yizo Yizo
