ITIL® Foundation with Case Study

Course Description:

The ITIL® Foundation course is the entry level certification course for IT Service Management Best Practices training in ITIL. This course covers the latest version of core ITIL best practices presented from a lifecycle perspective. The course introduces the principles and core elements of IT service management (ITSM) based on ITIL. ITIL is comprised of five core publications: Service Strategy, Service Design, Service Transition, Service Operations and Continual Service Improvement, promoting alignment with the business as well as improving operational efficiency.

This course is delivered using an exciting case study designed to further enhance and cement the candidates understanding of ITIL. Students who have attended this course are suitably prepared to successfully take the associated ITIL Foundation certification test which is a requirement for attending any of the further learning courses (ITIL intermediate level training) available in this track.

Course and Learning Objectives:

At the end of this course, you will be able to:
