## **Itls Study Guide 2015:**

*Yearbook of International Organizations 2014-2015 (Volume 4)* Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations

International Business Blunders Densil A. Williams, 2019-02-19 This book will provide empirical evidence of blunders committed by firms from small developing countries that operate in developed country markets It will identify lessons that managers who are looking to do business in international markets can learn in order to lessen the mistakes in markets that are psychically distant

**Addressing Gaps and Advancing Scholarship in the Study of Psychological Contracts** Sarah Bankins, Yannick Griep, Samantha D. Hansen, 2024-08-09 This book acknowledges the significant changes in the context and contours of the traditional employee employer relationship over the last several decades and highlights the emergence of exciting new directions for the study of psychological contracts PC New technologies and emergent forms of work are extending the temporal and spatial boundaries of employment such as through the rise of the shared economy and gig workers uptake of virtual work and flexible work arrangements and the use of off site co working spaces Technology use now permeates many aspects of jobs supported by artificial intelligence and machine learning technology Factors that motivate work are also changing as new generations of employees embrace their callings and organizations increasingly recognize their responsibilities to society and to employee wellbeing These changes are altering the traditional employer employee relationship and are key motivators of this volume The chapters in this volume chart new directions for PC research over the next decade by widening the theoretical and methodological lenses used to explore PC processes This book will be valuable to advanced students researchers and practitioners in organizational psychology organization studies workplace training and human resource management as well as those interested in improved performance of people and organizations The chapters in this book were originally published as a special issue of the European Journal of Work and Organizational Psychology

**The Cognitive Neuroscience of Attention** Joseph B. Hopfinger, Scott Slotnick, 2020-12-17 Attention refers to our ability to selectively process the vast array of stimuli impinging upon our senses at every moment The mental processes of attention are critical for allowing us to maintain focus and complete tasks efficiently even within distracting environments The brain

mechanisms of attention have been studied for decades yet much still remains unknown and consensus on core issues remains elusive A unique aspect of this book are chapters that highlight recent debates on critical issues in attention research Each of these chapters includes a comprehensive discussion paper that is followed by peer commentaries and an authors responses These debates include whether attention can modulate activity of even the earliest cortical processing region and whether changes in white matter are critical for plasticity related effects of attention training In addition to these discussion chapters the book presents cutting edge research on some of the newest theories of attentional control and selective attention including the influence of practice epigenetics reward social interaction and distractor suppression These studies employ advanced cognitive neuroscience methods such as neurostimulation functional neuroimaging pattern analysis and the evaluation of oscillatory brain activity to shed light on the brain mechanisms underlying attention The chapters in this book were originally published as articles in various issues of the journal Cognitive Neuroscience

*Bus Transport* David A. Hensher, 2020-04-17 *Bus Transport Demand Economics Contracting and Policy* examines in one source the most critical and current research themes of public transport relevant to regulators planners operators researchers and educators It highlights the wider economic impacts of public transport and compares energy usage across all public transport modes The book examines the evolving debate on Mobility as a Service MaaS and includes discussion of such themes as public image issues performance measurement and monitoring contract procurement and design models travel choice and demand and global public transport reform The book reflects the leading perspectives on the preservation and health of the bus sector intending to move public transport reform forward

*Connected and Autonomous Vehicles in Smart Cities* Hussein T. Mouftah, Melike Erol-Kantarci, Sameh Sorour, 2020-12-17 This book presents a comprehensive coverage of the five fundamental yet intertwined pillars paving the road towards the future of connected autonomous electric vehicles and smart cities The connectivity pillar covers all the latest advancements and various technologies on vehicle to everything V2X communications networking and vehicular cloud computing with special emphasis on their role towards vehicle autonomy and smart cities applications On the other hand the autonomy track focuses on the different efforts to improve vehicle spatiotemporal perception of its surroundings using multiple sensors and different perception technologies Since most of CAVs are expected to run on electric power studies on their electrification technologies satisfaction of their charging demands interactions with the grid and the reliance of these components on their connectivity and autonomy is the third pillar that this book covers On the smart services side the book highlights the game changing roles CAV will play in future mobility services and intelligent transportation systems The book also details the ground breaking directions exploiting CAVs in broad spectrum of smart cities applications Example of such revolutionary applications are autonomous mobility on demand services with integration to public transit smart homes and buildings The fifth and final pillar involves the illustration of security mechanisms innovative business models market opportunities and societal economic impacts resulting

from the soon to be deployed CAVs This book contains an archival collection of top quality cutting edge and multidisciplinary research on connected autonomous electric vehicles and smart cities The book is an authoritative reference for smart city decision makers automotive manufacturers utility operators smart mobility service providers telecom operators communications engineers power engineers vehicle charging providers university professors researchers and students who would like to learn more about the advances in CAEVs connectivity autonomy electrification security and integration into smart cities and intelligent transportation systems

*Recent Developments in Recruitment and Selection* Kristina Potočnik, Neil Anderson, Marise Ph. Born, Martin Kleinmann, Ioannis Nikolaou, 2024-10-04 This book brings together top recruitment and selection scholars to discuss recent challenges in employee recruitment and selection underpinned by research evidence from different European countries Broadly speaking recruitment and selection are concerned with attracting qualified candidates to apply for available jobs and selecting the best ones from the pool of available candidates As such they are critical to any business Numerous toolkits and best practice guides exist to help recruiters navigate different stages of recruitment and selection However traditional recruitment and selection practices should be adjusted to respond to diverse challenges in the current and future world of work related with increased volatility uncertainty complexity and ambiguity Specific examples of these challenges are related with the accelerated use of technology and artificial intelligence as well as more flexible work practices such as hybrid and platform based work The chapters in this volume cover the use of technology and gamification applicant discrimination and stigmatization and applicant reactions to technology mediated selection methods among others This book is the ideal text for students scholars and researchers of HRM Business and Management and Organizational Psychology It will also interest practitioners and professionals in the field The chapters in this book were originally published as a special issue of European Journal of Work and Organizational Psychology

Low-Cost Aviation Weiqiang Lin, Jean-Baptiste Fretigny, 2022-06-15 Low Cost Aviation Aeromobilities Culture Politics and Infrastructures covers critical societal issues such as labor regimes unequal and changing flying publics transnational dynamics of migration tourism business experiences environmental challenges and shifting territorialities of LCCs at various scales It situates LCCs holistically within a societal infrastructural regime rather than solely within a transport context The book explores the changing nature of passengers profiles and mobile cultures new consumption patterns and Economic Re Configurations as well as geopolitical and sustainability challenges Providing a research agenda for aeromobilities the book examines the most pressing social cultural and political impacts of LCCs on society in different global contexts It bridges transport and mobility studies fostering transport sustainability and mobility justice to improve air transport management Offers empirically grounded insights on key social issues and their implications Draws on the expertise of an international team of scholars across the social sciences including geography urban studies history and economics Utilizes case studies from Asia America and Europe Provides context theoretical approaches models and examples showing how they have been

implemented      *Consumer Preferences and Acceptance of Food Products* Derek V. Byrne, 2020-12-01 The acceptance and preference of the sensory properties of foods are among the most important criteria determining food choice Sensory perception and our response to food products and finally food choice itself are affected by a myriad of intrinsic and extrinsic factors The pressing question is how do these factors specifically affect our acceptance and preference for foods both in and of themselves and in combination in various contexts both fundamental and applied In addition which factors overall play the largest role in how we perceive and behave towards food in daily life Finally how can these factors be utilized to affect our preferences and final acceptance of real food and food products from industrial production and beyond for healthier eating A closer look at trends in research showcasing the influence that these factors and our senses have on our perception and affective response to food products and our food choices is timely Thus in this Special Issue collection *Consumer Preferences and Acceptance of Food Products* we bring together articles which encompass the wide scope of multidisciplinary research in the space related to the determination of key factors involved linked to fundamental interactions cross modal effects in different contexts and eating scenarios as well as studies that utilize unique study design approaches and methodologies
