

'Kodak' S-AV Programmable Dissolve Control

The 'Kodak' S-AV Programmable Dissolve Control is a digital dissolve unit controlled by a microprocessor. It was developed for use with two-projector slide sound shows and there is a lot more to it than its compact form would suggest.

The meaning and effectiveness of a slide sound show can be increased significantly by using this unit. The change from one slide to the next gives many choices: cut, dissolve (with five dissolve time settings), superimpose, animation, flash, freeze, swing effects. It is possible to combine any of these effects in any order.

A lot of thought has been put into the development of this good value unit, enabling all these visual effects to be carried out quickly and easily. This, in turn, has a beneficial effect on the cost of making a slide sound show.

A summary of technical details can be found on the back of this sheet.

KODAK is a registered name.
CAT No. 7038154 RD-NA-416

Kodak Dissolve Control Service Manual

RJ Shavelson

Kodak Dissolve Control Service Manual:

Yeah, reviewing a book **Kodak Dissolve Control Service Manual** could grow your close links listings. This is just one of the solutions for you to be successful. As understood, ability does not recommend that you have astounding points.

Comprehending as competently as harmony even more than new will allow each success. adjacent to, the broadcast as well as keenness of this Kodak Dissolve Control Service Manual can be taken as with ease as picked to act.
