Knec Exam 2014 London

Anjum Halai, Geoff Tennant

Knec Exam 2014 London:

School Science Practical Work in Africa Umesh Ramnarain, 2020-06-01 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry based learning which signals a definite paradigm shift from the traditional teacher dominated to a learner centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work and professional development in teaching practical work. This book will be of great interest to academics, researchers and post graduate students in the fields of science education and educational policy. [Handbook of Research on Digital Content, Mobile Learning, and Technology Integration Models in Teacher Education](#) Keengwe, Jared, 2017-07-13 While many facets of our lives are rapidly becoming more digital, educational institutions are now faced with the task of finding new and innovative ways to incorporate technology into the classroom. Examining the latest trends in digital tools provides a more effective learning environment for future generations. The Handbook of Research on Digital Content, Mobile Learning and Technology Integration Models in Teacher Education is a pivotal scholarly reference source that outlines the most efficient ways for educators to employ technology enhanced lesson plans in their classroom. Featuring pertinent topics that include blended learning environments, student engagement, artificial intelligence and learner centered pedagogy, this is an ideal resource for educators, aspiring teachers and researchers that are interested in discovering recent trends and techniques related to digital learning environments and technology enhanced classrooms. *Mathematics Education in East Africa* Anjum Halai, Geoff Tennant, 2016-03-08 This Open Access book is a valuable resource for policymakers and practitioners as it brings insights mainly from developing countries where relatively less research activity takes place. It is also a valuable resource for courses in mathematics education in the teacher education colleges and departments of education in the sub-Saharan Africa region. In the increasingly global and technological world, mathematics is seen as a significant gatekeeper of opportunities for social and economic advancement and mobility. Hence, countries and development agencies in the broader sub-Saharan Africa region are looking towards increasing access to relevant and high quality secondary education as a lever towards economic development. Policy makers and other key decision makers in education look towards improvement in mathematics teaching and learning as a key focus in education reform. In the East Africa region also, a number of initiatives have been taken at the national level in the respective countries to improve the quality of mathematics education. This book provides an in-depth comparative analysis of the developments and issues in mathematics education in Kenya, Tanzania, Rwanda and Uganda and advances our understanding of the state of

secondary mathematics education in East Africa

International Perspectives on Teachers Living with Curriculum

Change Martin Wedell, Laura Grassick, 2017-11-10 This book gives a voice to English language teachers faced with the challenges posed by English language curriculum change As a core component of national state system curricula in virtually every country in the world there has nevertheless been little research exploring how the millions of English teachers worldwide navigate the challenges posed by such curriculum changes This volume includes eleven stories from teachers based across every continent providing a global glimpse of how national English curriculum change projects have been experienced by classroom teachers who are commonly if erroneously viewed as mostly responsible for its implementation success or failure The final chapter synthesises these experiences and suggests wider implications for the development of curriculum change planning processes and how they might better support teachers attempts to achieve curriculum goals Edited and authored by leading experts in the field this ground breaking collection will be of interest to students and scholars of English language teaching teacher education curriculum change and education policy
