Survey**

Kobe Earthquake News Report:

Earthquakes The Open University, This 8 hour free course looked at why where and what happens when earthquakes occur and at how they are assessed qualitatively and quantitatively **Disaster Resilience** Douglas Paton, David Moore Johnston, 2006 This book will fill the gaps that hamper the effective utilization of the resilience and sustainability concepts within emergency planning one concerns the lack of a comprehensive review of this multi level concept the second relates to its multi level nature Specifically the text identifies a need for the systematic integration of these different levels in a manner that illustrates the holistic contribution of the resilience concept to emergency planning By integrating these different levels in a manner that illustrates the holistic contribution of the resilience concept to emergency planning a comprehensive working model of disaster resilience and sustainability can be developed The text discusses the resources and strategies required at each level to facilitate resilience and how they can be integrated to develop a sustained capacity to adapt to nature and other hazard consequences The nature and implications of these inter relationships will be developed throughout the text and will lead towards the development of a comprehensive integrated model of community resilience A key focus of the text will thus be its articulating the inter relationships between these levels The importance of basing emergency planning on the holistic application of the concept will also be discussed By representing resilience in a holistic manner the text will also constitute a resource capable of assisting assessment of the community implications of any shortfall of resilience resources for emergency planning and for community recovery planning The book brings together contributions from international experts in core areas It includes chapters that provide an overarching framework within which the need for inter relationships between levels to be developed is discussed It also includes sections that link chapters to progressively develop a holistic multi level model and a chapter that describes the final comprehensive model and its implications for contemporary emergency management It will be useful to those researching or teaching courses in emergency management disaster management community development environmental planning urban development sociology and applied psychology as well as to emergency management agencies risk management agencies engineers and consultants planners emergency and law enforcement agencies and social and welfare agencies Preliminary Report on the Great Hanshin Earthquake, January 17, 1995, 1995 *Issues and Environments* David Payne, Sue Jennings, 2002 Developed to match the revised AQA C specification from September 2001 this text offers integrated Key Skills and ICT and decision making exercises as well as exam practice questions There are relevant case studies at a range of scales for study material on key issues

Reconstructing Kobe David W. Edgington, 2011-01-01 Six thousand people died and hundreds of thousands lost their homes when an earthquake hit Kobe in January 1995 The Hanshin Earthquake was the largest disaster to affect postwar Japan and one of the most destructive postwar natural disasters to strike a developed country Although the media focused on the disaster s immediate effects the long term reconstruction efforts have gone largely unexplored Based on fieldwork and

interviews with planners activists and bureaucrats Reconstructing Kobe records the first ten years of reconstruction and recovery and offers detailed descriptions of the geography of crisis and opportunity Which districts were most vulnerable to the quake and why Did planners successfully exploit opportunities to revitalize the city and make it more sustainable and disaster proof David Edgington s intricate investigation of one of the largest redevelopments in recent history offers a compelling post disaster case study for planners and policy makers and is essential reading for students and scholars of Japanese urban and planning history

Foreign News Ulf Hannerz,2004 Foreign News gives a fascinating behind the scenes look into the practices of the global tribe we call foreign correspondents Ulf Hannerz also compares the way correspondents and anthropologists report from one part of the world to another

Japan Michael Witherick,Celia Tidmarsh,1997 This comprehensive book presents a series of case studies for Japan as well as a revision section to help your students achieve the best grade possible Teachers will also find this book useful for support at Key Stage 3

Asian Media Productions Brian Moeran,2013-12-16 A substantial book on the social practices and cultural attitudes of people producing reading watching and listening to different kinds of media in Japan China Taiwan Indonesia Vietnam Singapore and India

News ,1995

3.11 Richard J. Samuels,2013-04-15 On March 11 2011 Japan was struck by the shockwaves of a 9 0 magnitude undersea earthquake originating less than 50 miles off its eastern coastline The most powerful earthquake to have hit Japan in recorded history it produced a devastating tsunami with waves reaching heights of over 130 feet that in turn caused an unprecedented multireactor meltdown at Fukushima Daiichi Nuclear Power Plant This triple catastrophe claimed almost 20 000 lives destroyed whole towns and will ultimately cost hundreds of billions of dollars for reconstruction In 3 11 Richard Samuels offers the first broad scholarly assessment of the disaster s impact on Japan s government and society The events of March 2011 occurred after two decades of social and economic malaise as well as considerable political and administrative dysfunction at both the national and local levels and resulted in national soul searching Political reformers saw in the tragedy cause for hope an opportunity for Japan to remake itself Samuels explores Japan s post earthquake actions in three key sectors national security energy policy and local governance For some reformers 3 11 was a warning for Japan to overhaul its priorities and political processes For others it was a once in a millennium event they cautioned that while national policy could be improved dramatic changes would be counterproductive Still others declared that the catastrophe demonstrated the need to return to an idealized past and rebuild what has been lost to modernity and globalization Samuels chronicles the battles among these perspectives and analyzes various attempts to mobilize popular support by political entrepreneurs who repeatedly invoked three powerfully affective themes leadership community and vulnerability Assessing reformers successes and failures as they used the catastrophe to push their particular agendas and by examining the earthquake and its aftermath alongside prior disasters in Japan China and the United States Samuels outlines Japan s rhetoric of crisis and shows how it has come to define post 3 11 politics and public policy
