

Red Blood Cell Counting using a Hemocytometer

Each of the grids are used to count the cells of the grid.

Use your data table in the lab manual to record each of the grid cell numbers.

If you count from the top line of the grid, then end counting when to get to the top line on the bottom of the grid.

If you count from the left line on the left side of the grid, end the counting when you get to the left line on the right side of the grid.

Use a counter or tally count system so you don't lose track of your counts.

Record the counts for each grid right away in your tabulation

These instructions will repeat for each of the 5 grid slides.
