Marcel Mauss Don Lien Social Et Pluridisciplinariteacute:

Introduction to the Work of Marcel Mauss Claude Levi-Strauss, 2013-08-21 First published in 1987 Claude Levi Strauss is one of the intellectual giants of the twentieth century a leading exponent of structuralism and a great social anthropologist His *Introduction to the Work of Marcel Mauss* originally written to preface the earliest major collection of Mauss's writings *Sociologie et Anthropologie* 1950 was hailed as a seminal text by leading structuralists such as Derrida Lacan and Barthes This edition the first English translation to be published should prove invaluable to anthropologists philologists psychologists and all those interested in one of the most important intellectual movements generated by the twentieth century Levi Strauss uses an approach combining anthropology and structural linguistics to assess Marcel Mauss's achievements and intentions arguing that Mauss who at the time represented the mainstream of French anthropology was in fact structuralist manque He goes on to formulate the central tenets of structuralist thought the belief in societies being organised on immutable and unconscious laws this foundation then providing the basis for true scientific study multi disciplinary methodology combining anthropology linguistics and psychoanalysis and a faith that a comprehensive science of communication can be made by the application of mathematical reasoning **Marcel Mauss** Wendy James, N. J. Allen, 1998-12-01 Marcel Mauss successor of Emile Durkheim and one time teacher of Claude Levi Strauss continues to inspire social scientists across various disciplines Only selected texts of Mauss's work have been translated into English but of these some as for instance his *Essay on the Gift* have proved of key significance for the development of anthropology internationally Recently and starting in France the interest in Mauss's work has increased noticeably as witnessed by several reassessments of its relevance to current social theory This collection of original essays is the first to introduce the English language reader to the current re evaluation of his ideas in continental Europe Themes include the post structuralist appraisal of exchange the anthropology of the body practical techniques gesture systems the notions of substance materiality and the social person There are fresh insights into comparative politics and history modern forms of charity and new readings of some political and historical aspects of Mauss's work that bear on the analysis of regions such as Africa and the Middle East relatively neglected by the Durkheimian school and by structuralism This volume is a timely tribute to mark the centenary of Mauss early work and confirms the continuing relevance of his ideas
