The Iranian Revolution John L. Esposito, Middle East Institute (Washington, D.C.), Royal Institute of International Affairs, 1990 A wonderfully concise yet complete survey of the background and status of Islamic revivalism in all of its various forms in each region SAIS Review A rich and thoughtful study of one of the most significant events of recent times School of Oriental and African Studies Bulletin Marking the tenth anniversary of the Avatollah Khomeini's triumphant return to the Islamic Republic of Iran 1989 proved a benchmark year in Iran's history with the condemnation of author Salman Rushdie to execution the denunciation or Iranian liberals and the West the removal of Khomeini s chosen successor and the death of Khomeini himself John L Esposito introduces The Iranian Revolution with an explanation of why the present is a turning point for Iran He isolates the export of Islamic revolution as central to the Republic's character A concise description of the complexities of that issue is followed by a discussion of its effects within and outside Iran with the majority of the collection then devoted to insightful analyses of the Republic's impact throughout the Islamic world International experts from Iran Europe Africa and the United States assess worldwide impact of the Iranian Revolution on other Muslim societies and give us a remarkable analysis of the status of Islamic revivalism in a far flung array of Islamic statues and societies Lebanon Bahrain Egypt Tunisia Nigeria Turkey the USSR the Philippines Malaysia Indonesia and Iraq The book owes its quality not only to the currency of its subject matter but also to its distinguished contributors who address such issues as the failure of the Iranian revolution to replicate itself in other countries and the extent to which Iran's experience has shaped the politics economics and cultures of other countries Sponsors of the book and of the 1989 conference that inspired it are the Middle East Institute the Johns Hopkins School of Advanced International Studies and Royal Institute of International Affairs This objective and thought provoking assessment of the Islamic Republic of Iran's success to date in implementing its objectives as well as its prospects for the future makes timely reading for anyone seeking an understanding of the revolution s impact Contents Part I Iran 1 Introduction by John L Esposito and James P Piscatori 2 The Iranian Revolution A Ten Year Perspective by John L Esposito 3 Iran's Export of the Revolution Politics Ends and Means by R K Ramazani 4 Iranian Ideology and Worldview The Cultural Export of Revolution by Farhang Rajaee Part II The Middle East 5 Iraq Revolutionary Threats and Regime Responses by Philip Robins 6 The Impact of the Iranian Revolution on the Arabian Peninsula and the Gulf States by David E Long 7 Lebanon The Internal Conflict and the Iranian Connection by Augustus Richard Norton 8 The Impact of the Iranian Revolution on Egypt by Shahrough Akhavi 9 Tunisia and Libya Responses to the Islamic Impulse by Lisa Anderson Part III Southwest Asia and Central Asia 10 The Mujahidin and the Future of Afghanistan by Olivier Roy 11 Soviet Central Asia Does Moscow Fear Iranian Influence by Martha Brill Olcott Part IV Southeast Asia 12 Malaysian and Indonesian Islamic Movements and the Iranian Connection by Fred R von der Mehden 13 The Iranian Revolution and the Muslims in the Philippines by Cesar Adib Majul Part V Africa 14 Islamization in the Sudan and the Iranian Revolution by John O Voll 15

Islamic Revivalism in Nigeria Homegrown or Externally Induced by Ibrahim A Gambari 16 The Global Impact of the Iranian Revolution A Policy Perspective by John L Esposito and James P Piscatori John L Esposito is director of the Center for International Studies and professor of religious studies at the College of the Holy Cross The Iranian Revolution Charles River Editors, 2014-07-28 Includes pictures Profiles Ayatollah Khomeini and his ideology and leadership before during and after the Revolution Highlights the causes key events and effects of the Revolution Includes footnotes and a bibliography for further reading The Iranian Revolution of 1979 has been described as an epochal event called the peak of 20th century Islamic revivalism and revitalization and analyzed as the one key incident that continues to impact politics across Iran the Middle East and the even the world as a whole As a phenomenon that led to the creation of the first modern Islamic Republic in the world the revolution marked the victory of Islam over secular politics and Iran quickly became the aspiring model for Islamic fundamentalists and revivalists across the globe regardless of nationality culture or religious sect When Ayatollah Khomeini was declared ruler in December 1979 and the judicial system originally modeled on that of the West was swiftly replaced by one purely based on Islamic law much of the world was in shock that such a religiously driven revolution could succeed so quickly especially when it had such sweeping consequences beyond the realm of religion Revolutions are nothing new but most revolutions especially those in the West have tended to remain secular Even when religious ideology and themes were present as in the English Civil War of the 1640s these were not dominant driving forces behind the revolution nor were they a significant factor in its immediate results Even outside the West this has mostly proven to be true the nationalist revolution and war for independence in Turkey led by Mustafa Kemal Ataturk was a battle for separation of church and state that called for democratic principles of equality and the result was the formation of a modern and secular Turkey However the revolution that swept across Iran proved to be starkly different from past revolutions of the world Its most influential leaders came from the orthodox clergy and its most pronounced important goals were the ouster of the monarch who was deemed anti Islam and blasphemous and the complete return of Iranian government and society to fundamental Islamic principles As one of the leading scholars on Iran Nikki R Keddie wrote this revolution was aberrant refusing to fit into the theoretical and academic ideas of what modern revolutions should be like Yet there is no doubt that the Iranian Revolution ultimately led to a complete overhaul and restructuring of the age old political economic social religious and ideological orders in Iran Former Iranian Finance Minister Jahangir Amuzegar put it aptly The historical oddity if not uniqueness of the Iranian revolution can be seen in its four salient features its unforeseen rapid rise its wide base of urban support its vague ideological character and above all its ultimate singular objective to oust the Shah Furthermore while the focus of the revolution was primarily about Islam the revolution was also colored by disdain for the West distaste for autocracy and a yearning for religious and cultural identity Though these are features of many other revolutions the Iranian one was particularly unprecedented in the suddenness and rapidity of its occurrence as well as the sheer amount of

mass popular support it gained Much of the world including the U S and its Western allies were initially caught off guard by the sudden occurrence and unanticipated strength of the revolution The Islamic Revolution That Reshaped the Middle East explores the events leading up to the Iranian Revolution as well as the political economic social and religious characteristics of Iran before 1979 It also looks at the revolution and the lasting influence it has had both domestically and globally

Islam and Dissent in Postrevolutionary Iran Behrooz Ghamari-Tabrizi, 2008-04-08 The Islamic Republic of Iran came into being in 1979 the result of a radical revolution that overhauled not only the foundations of Iranian society religion and politics but also our understanding of the role of religion in modern government Here Behrooz Ghamari Tabrizi takes us on an enlightening journey showing that contrary to widespread assumptions the Iranian revolution opened up the public sphere to competing interpretations of Islam with profound consequences for the nature of democratic reform Ghamari Tabrizi sheds new light on the contingencies within which the new regime evolved and traces the steps by which the clerical establishment sought to consolidate power during the immediate postrevolutionary period Contrary to the received view he argues that the ruling class failed to institute a theocratic regime and more significantly unintentionally established the grounds for civic challenges to government policies underwritten by official interpretations of Islam Far from being the exclusive preserve of high ranking seminarians interpretations of doctrinal Islam in contemporary Iran now form a contested varied and negotiated discourse in which lay theologians intellectuals lawyers and social activists are active and influential interlocutors Against the background of this unexpected development Ghamari Tabrizi addresses the early and late works of Abdolkarim Soroush an Iranian philosopher who has become one of the most influential Muslim intellectuals in recent years a leading force behind Iran s pro democracy movement and vocal critic of the state Through a close reading of Soroush s evolving ideas and of the works of Ali Shari ati and by tracing the links between Muslim intellectual critique and the realpolitik of postrevolutionary power struggles Ghamari Tabrizi offers nothing less than a pathbreaking reassessment of the Iranian revolution In so doing he demonstrates how democratic transformation in Muslim societies has taken place by means of a public engagement with the teachings of Islam and highlights a most significant if unintended consequences of the Iranian revolution namely the secularization of Islam Drawing on a wealth of sources and with powerful insights Islam and Dissent is essential for an understanding of the Muslim world today and of the new relationships between religion culture and political The Iranian Revolution And The Muslim World David Menashri,1990-10-30 power visible across the globe Islamic Revolution Suroosh Irfani,1983 An account and analysis of the Iranian Revolution of 1979 by an observer who lived in Iran for many years and was present at the time The author places the Revolution in the context of a history of the various progressive Islamic movements in Iran which he argues have been inspired by a radical interpretation of Islam The Wav of Martyrdom Ruhollah Khomeyni, 1979 Le catalogue d exposition Hannah Darabi rue Enghelab la r volution par les livres Iran 1979 1983 publi en 2018 indique Ce livre est l'une des premi res publications du nouveau minist re de l'orientation

Hassan, 2005 Iran Harsh Arm of Islam sets out to bulldoze what it considers the most far reaching and distractive of all travesty created by men It is not my intention to trash Islam but to demonstrate that Shiite belief is irrational to nauseating heights If world Shiite wishes to continue believing in deceptive teachings of Iran's Shiite ayatollahs after reading this book that is their privilege however they will find it difficult to convince their children that the Shiite Islam is a religion to follow Iran Harsh Arm of Islam offers an unvarnished portrait of the Shiite religion the past Shiite imams including Imam Khomeini and the struggle of Iranians fighting a conspiracy in the name of religion Iran Harsh Arm of Islam is not just another hysterical anti Islam polemic but a forensic peep into the guts of Islam written by an intelligent angry and compelling Muslim critics intimately involve with current events This lively and compelling book is a product of nearly a decade of research and reflection on the relation and the polarization between secular minded Iranians and the Arab Iranian clergy It shows the lack of patriotism toward Iran and the Islamic institution s loyalty to the sands of Arabia The book s balance critique and recommendations are credible and deserve serious considerations Among much suggestion for change is for Iranians to shun the Arab ethos The Arab Islam and the Arab Allah The seven century Arab Allah that Arabs brought into Persia was created in their own image helplessly incompetent and supremely ignorant The ayatollah s of antiquity attributed superlative culture specific human words to their Allah Their Allah is accorded the epithets of allinfinite all compassion all merciful all powerful all knowing and all seeing As some Iranians would say they put watermelons under Allah s armpit to puff up his chest It was also a smart way to promote the class and status of mullahs in the Iranian society In assigning all power to Allah and to themselves the prerogative to carry out that power they have obtained a free hand Iranians should do away with the morbid Arab months in the Arabic calendar especially the months of Moharram and Safar At the same time they should throw out the Arab Allah and embrace their own God The Persian God of pre Arab Islam who championed love Compassion wisdom and tolerance for all people and all religions By doing away with Arab Allah Shiite clergies can no longer bequeath each other honorific titles by adding the word Allah to nouns to give definite and specific

connotation to Arab Allah such as Ayat Allah Allah s miraculous sign Ruh Allah Allah s spirit Hojat Allah Allah s proof to exert their influence over Iranians Iranians will be able to study and choose any religion without fearing the firing squads Also Iranians should convert thousands of useless mosques that are centers for prevention of knowledge with much needed libraries computer Art social activities and learning centers Perhaps in the past the world has not been conscious of one of the most dangerous place the triangle of Terror Qom Iran Karbala Najaf Irag its complicity its perverse brand of theology its zealous opposition to western democracy or at best saw it as a rather more distance peril but from this day on the world must The Iranian Revolution and the Resurgence of Islam Barry A. Rubin, Barry M. Rubin, 2007 This book examines the history and ideology of the modern Islamist movement discussing the Iranian Revolution other examples of revolutionary Islamism during the 1980s and 1990s and the state of jihadism today The Islamic Revolution in Iran Hamid Algar, Kalim Siddigui, 1980 **IRAN** Morris Mottale,1995 This book fulfills a need for a concise comprehensive work on the Iranian Islamic Revolution an event that has often been placed in the classificatory context of the greater and lesser revolutions of the 20th century The Iranian revolution in the late 20th century has acquired a special significance because of the rise of the so called Islamic fundamentalism The Iranian experience was the first political experiment to reflect this phenomenon and it is crucial for students of the subject to understand the details of Khomeini's experiment The revolution in Iran foreshadowed the clash between modernity and tradition that has now engulfed North Africa and the Middle East The phenomenon of Khomeini challenges many of the assumptions that have underlined theories and models of progress and development in the Western and non Western world Iran The Political Sociology of the Islamic Revolution brings this critical topic skillfully to the forefront Islam and the Post-revolutionary State in Iran Homa Omid, 1994-01-01 The Iranian revolution is the first example of a successful political takeover by a religious institution in the Middle East This volume traces the roots of the revolutionary powers of the ulama religious leaders and engages critically with their perspectives on an Islamic government and economy The author argues that the uneasy alliance between the intelligentsia and the ulama which has fuelled two successful revolutions in twentieth century Iran has always contained irresolvable tensions These continue to pull national politics in contradictory directions in the post revolutionary period On coming to power the Islamic government has had to contend with these conflicting forces as well as having to accommodate the loose collegial cooperation that had existed amongst religious leaders In addition the young zealous revolutionaries have also extracted the right to dictate terms to the post revolutionary state The result has been a profusion of command structures with administrative units duplicating one another s duties Even the armed forces have been replicated with the creation of the revolutionary guard corps and this has added an enormous burden of expenditure to the tottering budget It is the contention of the author that the failure to rationalise the administrative organisation has resulted in bureaucratic bungles and an increase in poverty In the 1990s the government has reneged on its avowed Islamic promises and its commitment to
