Harvard Business School ... Catalog of Teaching Materials, 1998 *The Directory of Venture Capital & Private Equity Firms* Richard Gottlieb, 2008 *Digital Transformation in the Cultural Heritage Sector* Tiziana Russo Spina, Francesco Bifulco, 2021-03-25 This book devises an alternative conceptual framework to understand digital transformation in the

cultural heritage sector It achieves this by placing a high importance on the role of technology in the strategic process of modeling and developing cultural services in the digital era The focus is on how marketing activities and customer processes are being transformed by digital technologies to create better value which can also be communicated to customers through an engaged and personalized approach Much of the digital debate in cultural heritage is still in infancy Some existing studies are anecdotal and often developed within the domain of established research streams including studies with some technological aspects addressed partially and from an episodic or periodic perspective Moreover the critical changes that have emerged in the cultural management landscape are yet to be highlighted This book fills that gap and provides a perspective on the cultural heritage sector which uses the new social and technology landscape to describe the digital transformation in cultural heritage sectors The authors highlight an inclusive perspective that addresses marketing strategy in the digital era as a proactive technology enabled process by which firms collaborate with customers to jointly create communicate deliver and sustain experience and value co creation
